WE CAN! Introduction

To succeed in English in an EFL environment, there are three indispensable elements: a good curriculum, a good teacher, and good teaching material.

A good curriculum takes in the overall structure of the course including goals, pedagogy, methodology, assessment, the syllabus, and day-to-day lesson plans. To make progress, it is vital to move forward systematically, continuously, and spirally, all the time respecting the development of the child.

Good teachers can be teachers in English-language schools, private schools, public schools, or at home. Being a good teacher has nothing to do with age or nationality. We believe that if you can speak English and teach and guide children, you can be a good teacher. This course has been designed not only with intermediate and experienced teachers in mind, but also takes into account the needs of first-time teachers. *We Can!* is as teacher-friendly as we could make it, as our wish is that teachers grow alongside their students as they work through the series.

Lastly, what makes good material greatly depends on what the goal or philosophy is. This course is based on the belief that good material for children is child-centered. Children have a totally different energy from that of adults and when children's imagination is captured, they can use this energy to enjoy and learn, unconstrained by limits.

We Can! presents material systematically, continuously, and spirally, with each part able to stand on its own, but also integrating seamlessly into the whole; and the series development closely matches the development of the child. Of course, these elements are fluid and are influenced by many factors, such as the environment, the dynamics in a group, and the ability of the children. But we hope that children and teachers using this course will gain a lot in fun, enjoyment, and education, and will blossom and grow together.

Six Unique Features of **WE CAN!**

Feature 1. Easy to Evaluate

Problem: Parents and even students themselves tend to wonder if they are making any progress in learning English.

Solution: Two goals per lesson make progress easy to see!

It is difficult for EFL students and their parents, living in a non-English speaking country, to see their progress. EFL teachers are often asked by parents (who sometimes cannot speak English themselves or have very limited knowledge of EFL), “How much has my child learned this year?” If students and parents don’t feel as if they are making progress, it is easy to lose motivation to study English.

We Can! has solved this problem with achievable and easy-to-understand goals. Each lesson has two goals: the odd numbered goals are based on what was learned in the book and the even numbered goals are a real-world expansion of the odd numbered goals. They provide students with the excitement of using “real-world” English. The goals can also be found in the Workbook.

Students try their best to achieve these goals by completing clearly defined tasks. Then the goal box is checked in the Student Book once the goal has been accomplished. Teachers can easily explain to parents what the students can do by showing them the accomplished goals. Students can feel satisfied that they are making progress with their English in every single class.

As the title suggests, *We Can!* has a classroom and real-world goal for each lesson. When it comes to making progress with English, teachers, students, and their parents can confidently say, “We Can!”

Feature 2. A Spiral Curriculum

Problem: Students forget what they have learned or can’t use learned language to communicate.

Solution: A spiral curriculum that constantly reviews learned language.

What is a spiral curriculum? A spiral curriculum is one that is constantly reviewing and bringing in previously learned vocabulary. Students must reuse and review

learned language often in order for it to become part of their long-term memory. Students also need to learn the skills necessary for producing meaningful written and spoken language. Furthermore, it is useless for students to learn large amounts of vocabulary if they can’t use it to communicate ideas.

Many courses teach vocabulary in separate “bubbles”. Students quickly forget the language they have learned when they move to the next topic or unit. They also never learn how to combine what they have learned in order to communicate.

How vocabulary is usually taught.

We Can! has a spiral curriculum, so past language is constantly reviewed and previously learned language is put together in a meaningful context. Class lessons and suggestions for the use of posters, flashcards, and Extension Activities in the Teacher’s Guide give teachers and students the support they need in order to clearly express themselves in English.

How language is taught in *We Can!*

Feature 3. Use English for Real Communication

Problem: Students don’t use English in their daily lives.

Solution: Creating situations in the classroom where students can use English for real purposes.

A big obstacle for EFL students is that they don’t have situations in their daily lives where they need to use English. Therefore, it is very important to create situations in the classroom where students can use English in a practical way. In most lessons in all Student Books, there is a section for students to have fun, complete challenging tasks, or exchange thoughts with their classmates in English.

These sections in the Student Book are as follows:

Student Book 1 – Fun Time!

Student Book 2 – Fun Time!

Student Book 3 – Challenge Time!

Only through using English can the student's level progress. When students have the opportunity to practice using English for a real purpose in the safe environment of the classroom, they will be more willing and able to use it in the real world!

Feature 4. Rhythm and Pronunciation

Problem: Students from different backgrounds have a difficult time understanding each other because of rhythm, pronunciation, and intonation differences.

Solution: Students can master rhythm and pronunciation skills through the use of chants, movement, drama performance, and role-plays.

To be a successful communicator, it is not enough to know vocabulary words or grammar rules. Rhythm is also an important aspect and one that children enjoy learning and quickly master. (Rhythm goes hand-in-hand with intonation, stress, clarity of speech, volume, and tempo. All are important to make yourself understood in a foreign language.) Rhythm is emphasized throughout this course, taking advantage of the facts that children have an excellent ear for new words, don't mind repetition, and learn well through movement. The English in this course is set at a natural speed.

Feature 5. The Balanced Use of Phonics

Problem: Students have a hard time with reading and writing. They have difficulty learning sounds and using good pronunciation.

Solution: Students use phonics to unite sounds with letters.

Phonics is an ideal way for EFL students to learn the sounds of the English language, as many of the common sounds do not exist in the student's mother tongue. In *We Can!*, phonics is introduced gradually and moves towards the goal of getting students to read and write on their own. Students who can do this are independent learners and do not need to repeat constantly after the teacher. Moreover, mastering the skills of reading and writing helps promote a firm foundation for all of the skills in English.

Learning phonics also helps promote good pronunciation in EFL. Students can see how to correctly

pronounce the sounds of English and actively learn how those sounds are put together to spell English words. Good pronunciation is necessary when you are trying to make yourself understood in a foreign language.

Feature 6. Expansion of Discourse

Problem: Students can't express themselves beyond the sentence level.

Solution: *We Can!* provides training for students to express themselves with, and understand, longer material structured with a beginning, body, and ending.

It is frustrating for teachers, parents, and the students themselves to find out that the children cannot express themselves beyond the sentence level, after several years of studying English. Students have studied basic grammar rules. They have learned enough vocabulary. What is missing?

The answer is training in the development of discourse. By discourse, we mean the organization of language above and beyond the level of the sentence. When the children listen to or read chants, dialogs, cartoons, and stories, they need to be helped to realize that there is a flow of thought that they need to follow. When they give a short talk, interview people, write a short e-mail, essays, or journals, or give presentations, they should know how to structure them using a beginning, body, and ending.

We Can! achieves this discourse training by means of many carefully designed, fun, experience-based activities, and interaction among students and teachers, because that is the only way the children can really learn.

Educational Principles Based on Children's Growth

Age Group	Characteristics
Early Childhood (From about 2 or 3 to 6 years of age)	<ul style="list-style-type: none"> • Can absorb new language like “sponges” • Can take in information without knowing the meaning • Can “output” information without worrying about making mistakes • Can use language instinctively • Can understand more than what they can say • Don't mind repetition if it is enjoyable
Lower Elementary (About 6 to 8 years of age)	<ul style="list-style-type: none"> • Can easily forget what was learned in the Early Childhood stage if not reviewed • Start to understand meaning • Can follow a rhythm • Pronunciation improves • Begin using words with intent • Can effectively absorb new words in frequently used “chunks” of language
Middle Elementary (About 8 to 10 years of age)	<ul style="list-style-type: none"> • Full of energy • Active physically and mentally • More competitive • Relationships with peers becomes more important • Learning how to cooperate with others
Upper Elementary (About 10 to 12 years of age)	<ul style="list-style-type: none"> • Entering the pre-teen years • More self-conscious • Critical thinking is developing • Feel the need to understand the meaning of things • Teacher needs to balance students' skills and motivation • Attitude in class is very important

Course Goals for All Ages:

- Confidence can be gained by standing in front of others and presenting what they know.
- Assessment is based on what they can do, hear, and say in front of others in English.
- Being able to communicate in English with others can enrich their lives in this era of globalization.

1. Use lots of facial expressions, like big smiles.
2. Use your body to make gestures.
3. Talk with a strong voice.
4. Keep eye contact when you speak to someone.

About the Teacher's Guide

This Teacher's Guide has been written to help you create more effective lesson plans and to give you the tools you need to teach successful classes. This quick overview will help you get the most out of the Teacher's Guide.

General Structure

- ★ Comprehensive lesson plans – including ideas on how to best set up activities and make efficient use of class time
- ★ Two pages per lesson – including reduced Student Book pages for the teacher's easy reference

Unit Breakdown

We Can! 1

Each unit in the Teacher's Guide has four main sections: Talk Time, Rhythms and Sounds, Words, Phonics, and an Optional Phonics Practice section. The four sections comprise the core lessons. A Fun Time! activity is included in each core lesson to create an enjoyable situation in which the students can naturally use the language they have learned. The accompanying Fun Time! tracks on the Class Audio CD provide a model of the activity and the language to be taught. To complete each lesson, there are two Goals at the end for students to accomplish.

The core sections in each unit and the Optional Phonics Practice serve the following purposes:

- ★ **Talk Time:** Students learn new language and practice it with the CD. Then, they practice it with a partner in pairs or groups, and they act out the talk with actions in front of the class.
- ★ **Rhythms and Sounds:** Students learn a chant to help them learn the rhythm of the English language. After this, good pronunciation is practiced. Students will also learn to substitute different vocabulary words to create new versions of the chant.
- ★ **Words:** New vocabulary words are introduced as chunks of language, so students can learn natural English expressions in the appropriate context. Many fun activities using these new chunks of language are included.
- ★ **Phonics:** Learning phonics is an important part of this course. In Student Book 1, students will learn the upper case alphabet letters first because they are uniform in size, easy to read and easy to write. Students listen and point to the letters, learn to make the sounds for initial letters and short vowels, color in the letters, and later practice writing them.

There are also short listening exercises in which the students write the initial sound/letter of a word.

- ★ **Optional Phonics Practice:** Additional phonics activities for further practice and revision of a number of phonics areas.

We Can! 2

Each unit in the Teacher's Guide has four main sections: Talk Time, Rhythms and Listening, Words in Action, Phonics/Sounds and Letters, and an Optional Phonics Practice session. The four sections comprise the core lessons. A Fun Time! activity is included in each core lesson to create an enjoyable situation in which the students can naturally use the language they have learned. The accompanying Fun Time! tracks on the Class Audio CD provide a model of the activity and the language to be taught. To complete each lesson, there are two Goals at the end for students to accomplish. The core sections in each unit and the Optional Phonics Practice serve the following purposes:

- ★ **Talk Time:** Students learn new language and practice it with the CD. Then, they practice it with a partner in pairs or groups, and they act out the talk with actions in front of the class.
- ★ **Rhythms and Sounds:** Students learn a chant to help them learn the rhythm of the English language. After this, good pronunciation is practiced. Students will also learn to substitute different vocabulary words to create new versions of the chant.
- ★ **Words in Action:** New vocabulary words are introduced as chunks of language, so students can learn natural English expressions in the appropriate context. Many fun activities using these new chunks of language are included.
- ★ **Phonics/Sounds and Letters:** Students listen and point to the letters, make the sounds for consonants and vowels, and later practice writing them. There are also short listening exercises in which the students write the missing letter/s of a word. In addition to the phonics component of this course, long and short vowels as well as consonant clusters and plural noun endings are focused on to ensure that students develop the ability to hear and distinguish between sounds before they can read and write them correctly.
- ★ **Optional Phonics Practice:** Additional phonics activities for further practice and revision of a number of phonics areas.

We Can! 3

Each unit in the Teacher's Guide has four main sections: Finding Out time, Grammar in Action, Rhythms and Reading, Phonics, and an Optional Phonics Practice Section. A Challenge Time! activity is included in each of the first four lessons to create an enjoyable situation in which the students can naturally use the language they have learned. To complete each lesson, there are two Goals at the end for students to accomplish. The sections in each unit develop the students' spoken and written language skills and serve the following purposes:

- ★ **Finding Out Time:** Students learn new language and practice it with the CD. Then, they practice it with a partner in pairs or groups, and they act out the talk with actions in front of the class.
- ★ **Grammar in Action:** Grammar points for the new language are introduced and students have the chance to practice and then use them in meaningful communicative activities.
- ★ **Rhythms and Reading:** Students learn a new chant and practice reading the words to it with good rhythm. They can then copy the chant and/or create their own version by substituting words and using new pictures, before presenting it to the class. Students also learn to read different types of text and complete a variety of tasks.
- ★ **Phonics:** In Student Book 3, students will review familiar sounds such as long vowels, and then focus on words with polite vowels, vowel digraphs, murmuring sounds, consonant clusters, silent letters, ending sounds and revise areas that are more challenging.
- ★ **Optional Phonics Practice:** Additional phonics activities for further practice and revision of a number of phonics areas.

Key Features

- ★ **Classroom English:** This was introduced in We Can 1 and 2. During each class time, the corresponding Classroom English poster may be used in order for all classroom commands to be provided in English.

Materials Box

- ★ Teachers can easily see what they need for each lesson at a glance.

Light bulb tips: These tips are provided to help the class run more smoothly and help ward off potential obstacles that may occur in lessons.

- ★ Small / Big / Quiet Class

Options: Not all classes are the same and this Teacher's Guide has been written with this important point in mind. Advice is provided on how to adjust activities for small-sized classes, big-sized classes, and quiet classes in which the teacher must keep the noise level down.

- ☑ **Goal Check Advice:** Goals are an integral part of this course. The achievement of set goals can provide students with a strong motivation to keep learning English. Advice is provided to teachers on how to handle the Goals efficiently at the end of each lesson.
- ★ **Optional Activities:** These are provided to give the teacher different variations of an activity to keep students interested and challenged.
- ★ **Extension Activities(Optional):** Creative and fun Extension Activities are included for each lesson. They are an effective way to use the language learned in each lesson in a different context.
- ★ **Non-verbal Communication:** Students are given the chance to practice important non-verbal communication skills, such as shaking hands or using gestures, often used in English-speaking countries.

Unit 1 It's Nice to Meet You!

Lesson 1

Finding Out Time

Materials

- ★ Two large pieces of paper with the names Jack and Hashim (written on separate pieces)
- ★ A world map or globe

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Put your hand to your forehead and pretend to search for a student while spelling his/her name. When the student looks up or raises his/her hand, smile, wave, and say, "Hi!" Encourage the child to respond by saying, "Hi" or "Hello". Continue until all of the children's names have been spelled and called out. Next, have the students try. Whisper a classmate's name in the student's ear and have that student spell the name and search for that student. When he/she finds the student, have them say, "Hi!" to each other. You can manage the activity as a game by dividing your class into groups and setting a time limit for students to spell and respond. If a student goes over the limit or makes a mistake, the group misses its turn and the other group gets two runs.

1 Listen and practice. Audio script page 152

Have the students open their books to page 2. Point to Jack and Hashim and teach the students the characters' names. Play the CD and have the children point to the characters when they hear their names.

Show the world map or the map of Saudi Arabia and ask a student volunteer to show you the location of Jeddah. Then, have two student volunteers come to the front and give each student the piece of paper with "Jack" or "Hashim" written on it. Have the

students act out the talks in front of the class. (Keep in mind that you'll need to prompt them or perhaps say the sentences first and have them repeat after you.) Praise them for a job well done.

Play the CD again and practice saying the sentences along with the CD.

2 Small Talk: Ask your partner and get the real answers. Audio script page 152

Play the CD. Ask the students if they can show you what city/town they are from on the map. Then, have the students ask you the questions and answer them. Point to the city that you are from on the map of Saudi Arabia.

 **If you don't feel comfortable telling the students your age, give a deliberately fake and humorous answer. (e.g. I'm 100 years old!) Teach the students that, in some cultures, asking adults their age might be impolite and too personal.**

GOAL 02

3 Unit 1

Tell students that they are going to listen and match each person with a city/town. Point to the line connecting Abdullah and Riyadh and ask students, "Where does Abdullah live?" Elicit the answer from several students.

Play the CD track and have students listen and match children and cities/towns. Encourage them to circle the right ages but explain that they will have the opportunity to listen to the CD a second time to complete/check their answers.

Play the CD again and check answers in class.

Have the students make pairs and practice the conversations. Circulate and make sure that all of the students are speaking English. Help when required.

Invite pairs to stand up and act out the dialogues. Then have them create new characters with different names, in different cities. Ask pairs to act out their dialogues for the rest of the class.

Tell students that they can use cities from different countries and role play.

Have pairs come to the front and act out.

Have students think about people they know who live in different places. Invite volunteers to talk about them.

Ask them questions about the children's names and ages. For example, "Is Faisal 12 years old?", "Look at Amal and Nawal. Are they 13 years old?". Encourage learners to ask each other in open pairs across class or in closed pairs.

S Have the students take turns asking a partner the questions and getting his/her answers, while standing in front of the class. Praise each pair for a job well done.

B Have the students stand up and find a partner. Have them ask each other the questions and get the answers. Circulate around the room to make sure all of the students are speaking English.

Listen, match, and circle the correct age.
Ask and answer with a partner.

Have the students look at the map on page 3. Call out the names of the cities on the map and have students point to them. Hand over to confident students, to read and call out names as the rest check. If you wish, you can have students spell the names of different cities for their partners or the rest of the class to identify and call out.

Ask students to look at the pictures and read the names of the boys and girls. Point to the ages under each one and have students read them out.

Goal Check

Goal 01 ☒

Have the students find a partner and act out the talks. After they have done them, they should check the box in their books.

Goal 02 ☒

Students find a friend and ask and answer questions about the children on page 3. Have them ask about name, age, and where the children live. Once they have asked the questions and got the answers, they should check the box in their books.

Lesson 2

Grammar in Action

Materials

- ★ A ball
- ★ paper
- ★ Optional - Family pictures

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Count aloud as you write the numbers 1–20 on the board. Encourage the students to count along with you. Throw the ball to one of the students and say, "twenty-one". The student must throw the ball to a different student and say, "twenty-two". Continue until the students have reached the number one hundred. Encourage students to do it as fast as they can as the counting goes on.

Hold up a photo of one or more members of your family and say, "This is my brother. He is ... years old. He lives in ..." Then have students open their books to page 4, look at the picture of the girl holding the family photo and answer a few simple questions, for example, "What's the girl holding?", "How many people can you see in the photo?"

When first introducing the concept of "he" and "she", it is best to draw a stick figure of a girl and one of a boy to point to each time you or the students use "he" and/or "she". It would also help to have the drawings or pictures of a boy and a girl on the board for the next few lessons to use as prompts for elicitation or self/peer correction.

Play the CD and have the students point to the appropriate pictures. Play the CD again and have the students repeat. Give them time to read and number

3 Talk about your family with a partner.

Have students draw pictures of their families, point to each family member and introduce him/her/them to each other. Ask them to listen carefully and try to remember the information about their partner's family. Have them exchange pictures and introduce their partner's family to their partner, as a memory game.

Invite individual students to introduce their families to the rest of the class.

Challenge Time!

4 Whose ... are these? Whose clothes are these? Listen and match.

Read the instructions and point to the line connecting the shoes with Steve. Have the students make pairs, guess and match each clothing item with a child. Explain that it's easier to listen and understand if they have some expectations/ideas about what they are likely to hear.

Play the CD and have the students listen and match clothing items and children. Make sure they draw lines. Encourage them to use their guesses and

confirm or change them, according to what they hear on the CD. Have the students listen to the CD track and repeat. Pause when necessary to give them time. Then ask them to make pairs and practice asking and answering using *his, hers, theirs* and (name)'s. Point to the example in the book.

Hold up objects that belong to you or different students, ask "Whose book is this?", or "Whose pens are these?" and answer/introduce *mine, yours, ours* by pointing to yourself, yourself and a student, a pair of students, etc. Have the students repeat.

Invite volunteers to come to the front, hold up objects and ask individual students in class. Have students form groups and ask and answer questions about stationary on their desks, bags, and other objects in the classroom. Circulate, encourage students to speak English and help if necessary.

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Hold up letters that spell out a word, for example "p-e-n-c-i-l" and say, "I have a p." Hand the e, i, l to one student and the n and c to different students. Demonstrate by pointing to yourself and the students as you or the students hold up each card, for example, "I have a p, you have an e, he/she has an n, he/she has a c. If you have an i and l, then we have all the letters to write "pencil".
- Have students open their books to page 6. Point to the photos on the page and invite students to name the objects and spell them.

1 Listen, chant, and point.

Play the CD and have the students listen and follow in their books. Play the CD again and have students chant. Divide your class into groups and assign the first part of the chant about the bicycle to group/s A and the second part of the chant about the computer to group/s B. Have the students chant, then exchange parts and chant again.

Play the CD again and have the students listen, repeat and mime.

Demonstrate with one of your more confident students and some alphabet cards. Then have students volunteer to demonstrate for the rest of the class. Point to the box at the top of the page and remind the students to use *can* and *can't* during this activity.

When they are ready, ask students to turn the cards face down, spread them on their desks and take out 12 cards at random. They can put the rest aside to use later. Have the pairs/groups play the game while you circulate. Encourage and praise students for the work they do.

Getting Started

- The students should say, “Hello! How are you?” to the teacher and their classmates when they enter the classroom.
- Pass out The Alphabet A–Z cards to the students in a random order. Have them line up holding a card each to form words. The students can use the letter cards that they used in the Letter Sharing Game in the previous lesson.

Teachers who are native speakers of English should be very sensitive to how difficult it may be for students to make these sounds. The sounds that are commonplace in English do not exist in many other languages, and it may be difficult for students to tell the differences between them without these types of phonics exercises.

3 Listen, say, and match.

Have students look at the pictures and name the ones they remember. Play the CD track and have students say the words along with the CD. Write *rice* and *pie* on the board. Highlight the *i_e* in *pine* and the *ie* in *pie*. Make sure the students realize that the sound is the same in both cases. Play the CD again and have students listen and match. Point to the example for *rice* to make sure the students know what they have to do.

Have the students look at page 9. Ask individual students some of the questions in the questionnaire. Then call on students to ask each other and answer across class. Point to the column under Noura and explain that you are going to play a CD with an interview. Point to the options for each question and tell the students that they have to circle the correct

answer as they listen. Give them time to read the questions and answers before you play the CD.

Play the CD track as students listen and circle. Have them compare with their partner. Play the CD again and have them check and confirm their answers. Have students report the information about Noura using sentences like these: "Noura is 12 years old. She lives in Jeddah. She has ..." Call on students to repeat the answers to make sure they listen to each other.

Next have each student choose two partners to interview. Ask them to make a note of the answers using Noura's answers as an example. Circulate and help students who need help. Ask students to report on their partners using sentences like the ones they used to report the information about Noura.

Option: Ask them to write a paragraph about the two friends/partners they have interviewed.

Goal Check

Goal 07

Have the students hold their books and make a line in front of you. When they get to the front of the line, they should read words from page 8 by themselves. Once they have completed this goal, check the box in their books and have them sit down. This may be a challenging goal for some students, therefore, feel free to prompt them or help them out if they need it.

Goal 08

Have the students stand up in pairs and ask two or three questions from page 9 and answer them. Once they have completed this goal, check the box in their books.

Distribute the charts to the students. Tell them that each group has only part of the information about the people in their chart and that they have to ask each other to find out more and make notes. Demonstrate with two volunteers, one from each group. For example, student A: "What's his name?", student B: "His name's Badr." Have student A make a note of the name.

Have the students make pairs with a student from A and a student from B or ask them to stand up and mingle in class to find someone from the other group. Give them time to ask and answer. Call on students to report their answers in class while the

rest of the students listen and agree or disagree and correct. Encourage them to report their answers in complete sentences like this, "His name is Badr."

Lesson 2 • Grammar in Action

Materials:

- ★ Paper and coloring pencils or crayons

"This is my family"

Have the students draw their families. Tell them that their drawings do not have to be perfect.

Have them introduce their family to their partner. The partner should point to a person in the picture and say, "Who's this?", or "Who are they?" The student with the photo/picture should say, "This is my father. His name is ..." Invite a pair to come to the front and demonstrate for the class.

Then have the students introduce each other's families. For example, "This is Saeed's family. This is his father. His name is ..."

"Whose ... is this?" – Memory Game

Invite 6 or more students to stand up hold up one or two objects or a piece of clothing and say, "This (bag) is mine." Make sure the objects are different, i.e. do not use two identical pens. Ask them to repeat a second time while the rest of the students listen. Tell the rest of the class to listen and look at the objects carefully. Ask them to make pairs or groups.

Put the objects on a table or your desk and invite two groups/pairs to come to the front, point to each item, and ask and answer, for example, Student A: "Whose pencil case is this?", Student B: "It's Sahar's."

Lesson 3 • Rhythms and Reading

Who is chanting? Guessing Game

Ask the students to sit down and close their eyes or turn around and face the back of the classroom. Play the *I have, You have ...* chant. While the chant is playing, tap one of the students on the shoulder and have them very quietly open their eyes, stand up, and walk to the front of the class. Once the chant ends, stop the CD player. While the other students' eyes are closed, the chosen student chants *I have, You have ...*. The other students have to guess who is chanting. If they know, they should raise their hand and say, "I know! He's/She's (name)." If the student guessed correctly, the other student who said the chant should say, "Yes! Open your eyes." Play a few rounds of the game.

In our noisy, modern society, children often don't fully develop or exercise the skill of listening carefully. This game forces children to totally rely on their sense of hearing.

Lesson 4 • Phonics

Materials:

★ Board

Phonics Race

Write *ea* and *ee* in large letters on the board. Divide your class into groups and have them stand near the front of the class. Tell the students that every time you say a word, a student from their group has to run to the board and write the word. Have the students go back to their seats. Say each word again and have the students check the spelling on the board. The group with the fewest mistakes becomes the "Phonics Teacher" for the day and repeats the activity with the rest of the class.

Word-making

Write *ice* and *ine* on the board. Ask the students to try and make as many words as they can with each ending. Explain that they will have to add one or more letters before *ice* or *ine*. Give them an example, e.g. *rice*, *pine*. Give them time to think of words in pairs. Then ask each pair to write their words on a piece of paper and in hand it to you. The pair with the most words wins.

Unit 2 Sea Animals

Lesson 1

Finding Out Time

Materials

- ★ Opposites flashcards (We Can 2)
- ★ Sea Animals poster
- ★ Letter cards from Unit 1
- ★ Small pieces of paper (3 per student) and a box or paper bag.

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Review and chant from page 6 with the letter cards.
- Review the Opposites flashcards. Divide the class into two teams and give each team one half of the cards. One team will look at their cards secretly and call out one of the words on a card (i.e. big). If the other team can call out the opposite (i.e. small), they get one point. The team with the most points wins.

1 Listen, point, and practice. Audio script page 154

Have the children open their books to page 10 and listen to the CD as they point to the sea animals mentioned in each sentence.

Refer to the poster and find out together which animals are both on the poster and on page 10. Then, teach the names of the other animals on the poster.

Say, "A walrus is fat. Which other sea animals are fat?" (When you say the word "fat", make a gesture for that adjective.) Elicit which animals on the poster are also fat and have the students make similar sentences. (i.e. A seal is fat.)

1. What's that? It's a .
2. What do you think about it? I think it's .
3. What are those? They're .
4. What do you think about them? I don't think they're .

10

Do the same with the rest of the sentences in the audio script for this exercise. Play the CD again and encourage the students to say the sentences along with the CD as they point to the sea animals in the picture.

2 Small Talk: Ask your partner and get the real answers. Audio script page 154

Before beginning this exercise, quickly review singular and plural forms by using the Sea Animals poster. Point to the whale and say, "whale" and then point to the dolphins and say, "dolphins", putting emphasis on the "s" sound. Then point to the whale again and say, "What's that?" Elicit, "It's a whale." Point to the dolphins and say, "What are those?" Elicit, "They're dolphins." If the students do not remember this grammar point, spend a few minutes reviewing the language.

Next, get the students to practice this by pointing to the singular nouns on the poster and saying, "What's that? It's a/an (name of sea animal)." Do the same with the plural nouns on the poster and say, "What are those? They're (names of sea animals)."

Challenge Time!

3 My Opinion

Can you use the pictures from Exercise 1 to say three sentences about sea animals?

Example:

1. I think a seahorse is cute.
2. I think sharks are scary.
3. I don't think whales are fast.

I Can ...

- ask and answer four questions about sea animals.
- say what I think about two sea animals.

Now go to page 100

11

Unit 2

Play the CD and have the students listen. Invite a student volunteer to come to the front of the class, point to the Sea Animals poster, and ask you questions 1 and 2 or questions 3 and 4, depending on whether or not the sea animal is in the singular or plural form. Next, point to a different animal on the poster and ask that student the questions.

Play the CD again and then have the students find a partner.

- S** Have the students take turns asking a partner the questions and getting the answers, while standing in front of the class. Have them point to the poster when they ask the questions. Praise each pair for a job well done.
- B** Have the students stand up and find a partner. Have them ask each other the questions and get the answers. Have them point to the sea animals in their book when they ask the questions. Circulate around the room to make sure all of the students are speaking English.

3 My Opinion

In this exercise, the students will need to give their own opinion about sea animals, using the vocabulary on page 10 and the Sea Animals poster. Point out and read the three examples written in the cloud on the page.

Give each student three small pieces of paper. Students will make a sentence about sea animals and should begin their sentences with the words, "I think..." or "I don't think..." Walk around the room with a box or paper bag and when a student says a sentence about a sea animal, they should put one piece of paper in the box.

If students have trouble making their sentences, have them point to the animal on page 10 that they want to talk about and help them make the sentence.

Continue until the students have each put all three pieces of paper in the box.

Goal Check

Goal 09 ☒

Have the students find a partner and ask four questions about sea animals. Then reverse roles. Once they have completed the talks, they should return to their seat and check the box in their books.

Goal 10 ☒

Grammar in Action

Materials

- ★ Sea Animals poster

Getting Started

- The students should say, "Hello! How are you?" to the teacher when they enter the classroom.
- Review the vocabulary on parts of the body and play "The Teacher Says". (Note: The object of the game is to follow what "the teacher" says to do. You must only do the action when it is prefaced with, "The teacher says..." If just the action is said and the student does the action, that student is out of the game and must sit down. When playing this game, "the teacher" always does the actions to try and trick the players into doing what he/she says, even when they aren't supposed to.)
- Say, "Let's play 'The Teacher Says!'" To confirm everyone knows how to play the game, say, "The teacher says, 'Touch your ear!'" and have all of the students touch their ear. Then say, "Touch your mouth." Say to any of the students who touched their mouth, "Uh-oh!" and tell them to sit down. Now, have everyone stand up and play the game together. Try to say as many body parts as you can.

Have the children open their books to page 10 and try to get the students to tell you about the sea animals on the page, so they can review the adjectives and animals. Next, have them turn to page 12. Play the CD and have the students point to the words.

Have the students do the following gestures with you in order to grasp the grammar easily: hold both hands in front with palms down at chest height and say the adjective (i.e. cute). Next, put your right hand, palm down up to forehead height (while keeping your left hand in its original position) and say the

Unit 2

4 Write a sentence about an animal. Exchange sentences and guess.

Tell students to think about other animals they know, including the sea animals on the Sea Animals poster and make a list. Have them work in pairs or groups writing one sentence about each animal on the list. Make sure they do not mention which animal it is. Invite pairs/students to exchange sentences, read, and try to guess which animal each sentence is about. Tell them that they should write the name of the animal under the sentence and then give it back to the student who wrote it.

Set a time limit from 2 to 5 minutes, depending on how confidently students can read. Students should read and match sentences and animals in pairs. Invite pairs to stand up, read a sentence, and match with an animal. Ask the rest of the students to listen carefully and agree or disagree. Encourage students to give reasons for their answers. For example, if a student matches sentence D wrongly with mouse, the rest of the students should give a reason when they disagree, for example, "A mouse is quiet, but it isn't slow," or, "Mice are quiet, but they're not slow."

Lesson 1 • Finding Out Time

Sea Animals Class Survey

Draw the following chart on the board and have the students turn to page 11.

Sea Animals Class Survey				
	big	cute	fast	scary
walrus				
whale				
seahorse				
seals				
dolphins				
sharks				

Ask the students to read their sentences about sea animals from the Challenge Time! exercise. Whenever a student reads a sentence, ask the class, “Do you think so, too?” Students who agree can raise their hands and say, “Me, too!” Then, write the number of how many students agree.

Once the chart is completely filled in, report how the class feels about the different sea animals. For example, “Six people think a walrus is big. Nobody thinks a walrus is cute,” etc.

Lesson 2 • Grammar in Action

Materials:

- ★ Sea Animals poster

My Favorite Sea Animal

Put the Sea Animals poster on the board and review the sea animals. Then, tell students that they are going to write about their favorite sea animal. Students must choose their favorite sea animal and describe it.

1. On the first line, students write the color of the animal (as it appears on the Sea Animals poster).
2. On the second line, they write how many of a certain body part the animal has.
3. On the third line, they compare the sea animal to another one. (See page 12.)

4. Next, they draw a picture of the sea animal and color it.
5. They write the name of the sea animal under the picture.

After the students are finished, they will come to the front of the class and describe their animal without showing the worksheet to the other students. The other students have to guess, “Is it a/an (sea animal)?” The student answers, “Yes, it is a/an (sea animal).” or “No, it’s not a/an (sea animal).” Let the students keep guessing until they get it right. Then the student at the front shows his/her sheet and points to the drawing of the sea animal.

Lesson 3 • Rhythms and Reading

Materials:

- ★ Sea Animals flashcards

Sea Animals Prepositions Game

Review the prepositions *on*, *in*, *under*, *next to*, and *behind*. Also, review the Sea Animals flashcards and some objects in the classroom (i.e. chair, table, desk, door, etc.)

Write the following sentence on the board, “The _____ is _____ the _____.” Take one of the Sea Animals flashcards and place it somewhere in the classroom. Point to the card and then point to the sentence on the board as you describe where the card is. (i.e. The crab is next to the door.)

Put another card in a different place and have the students make the sentence together as a class. Next, say, “Let’s play a game!”

Divide the class into two teams. Tell everyone to close their eyes and then place the cards in different places around the room. Tell the students to open their eyes and one student from each team will stand up, point to a card, and make a sentence about where the card is, following the sentence pattern on the board. If he/she says the sentence correctly, his/her team gets a point and the student hands the card to you. If he/she can’t say the sentence correctly, the card stays where it is. If neither team can make a correct sentence about a certain card, the teacher will say the sentence and gets a point!

The team with the most points, after all of the cards have been picked up, is the winner.

Lesson 4 • Phonics

Materials:

★ Paper

Write the following words on the board:

goat	snow	boat	clown
window	how	yellow	now
coat	house	mouse	cow
brown	show		

Have the students draw two boxes on a piece of paper. Call on volunteers to read the first two words, i.e. *goat* and *snow* and ask the students to write them over the first box. Then have another volunteer read the words *house* and *cow* and have the students write them over the second box. Ask the students to make pairs, say and write the rest of the words in the appropriate box. Have pairs exchange and check each other's work. The pairs with the fewest mistakes win.

Backward Rhyme

Have each student write the word you say as you point to them on a small piece of paper and fold it. Point to each student and say one of the words in the rhyme in order. Point to the first students and say, "house", point to the second student and say, "mouse", and so on. The words you need are: house, mouse, cat, snake, and cow. Have the students put the folded pieces of paper in a bag. Shake the bag to make sure the pieces are all jumbled and have each student take a piece of paper and read what it says. Group students according to the word they have. Put the students with "cat" in one group, the students with "mouse" in another group, and so on. You should have five groups. Have them say the rhyme in parts.

Then have them practice saying the rhyme backwards starting with "cow". If you wish, you can have the groups switch roles and repeat.

Go to page 12 and review the adjectives, comparatives, and superlatives with short adjectives (i.e. cute, scary, fast, big).

Next have the students do the following gestures with you so they can grasp the grammar easily: hold both hands in front with palms down at chest height and say the adjective (i.e. exciting). Next, put your right hand, palm down up to forehead height (while keeping your left hand in its original position), and say the comparative (i.e. more exciting). Finally, extend your right arm over your head and hold up your index finger as if to say "Number 1" (while keeping your left hand in its original position) and say the superlative (i.e. the most exciting).

Next, explain that with short adjectives, you use the endings "er" and "est" (i.e. cuter, cutest). However, with long adjectives, you say the words "more" and "most" before the adjective.

Ask the students, "What sport do you like?" and have them say, "I like (sport)." Then, ask, "How many people like (sport)?" and have them tell you how many people are in their group. Write the number down on the chart.

Have the students make a circle. Make up a new version of the chant using a new sport, while miming that new sport. The other students should mime the sport along with you. Then, choose a student in the circle. That student makes a new version of the chant using that sport and mimes that sport, while the class mimes it along with him/her. If your students are good at writing/spelling, say the words in jumbled order and let the students find the right word to complete. If they are having difficulty with spelling/writing, say the words in the same order as the blanked words on the board.

Have the students work in pairs, choosing words. Next invite pairs to come to the front, write the first letter of each word and add lines for the letters. Ask them to be teachers and call out the words for the rest of the class to write/spell. Give the students time to check their spelling. Encourage them to find the words in their book.

- chant the *Chores* chant.

Now go to page 104

29 Unit 4

Once everyone has completed the exercise, read the sentences together.

Goal Check

Goal 27 ☒

Have the students stand up, hold their books, and make a single file line in front of you. When it is their turn, they should choose a verb from page 28 and say the two forms. After they have said the verbs, check the box in their books.

Goal 28 ☒

S Have the students stand up and chant the *Chores* chant. Check the box in their books after they have chanted it.

B Have the students form groups of four and take turns standing up in front of the group and chanting the *Chores* chant. After they have successfully done this, have them check the goal box in their books.

Challenge Time!

3 Make Sentences

Tell the students to look at the words on page 29. Read each column of words aloud as a class. Explain to them that they will make three sentences by connecting the boxes.

Have the students take out their colored pencils and draw a line between a yellow box, a green box, and a pink box to make a sentence. For each sentence, they should use a different color pencil. Students can refer to page 28 during this activity.

Once they have completed drawing the lines, they should raise their hands and say, "I'm finished!" Then have them read the sentences to you. If the student has made a mistake, point it out and refer him/her to the grammar lesson on page 28 (Exercise 1) and see if he/she can correct it. If some students are very slow to complete this exercise, you can whisper an example sentence to these students and see if they can draw the lines.

3 Spelling Bee Audio script page 159

A Spelling Bee is a spelling contest in which the participants have to spell words correctly aloud after they hear them dictated.

Have the students look at page 33 and listen to the CD to hear how to conduct a Spelling Bee.

If you think the students need to look at the alphabet as they spell the words, pass out The Alphabet a–z cards, have the students put them in alphabetical order, and place them where everyone can see them. Alternatively, you could put The Alphabet poster on the board or have student volunteers write the alphabet on the board.

Here's how to conduct a Spelling Bee:

1. Have all of the students stand up.
2. Go to the first student and ask him/her "How do you spell _____?" (Choose a word from the box on this page.)
3. If the student can spell the word correctly, he/she remains standing and then you move to the next student and ask him/her to spell a new word.
4. If that second student cannot spell the word correctly, say, "No, I'm sorry." in a sensitive way and ask him/her to sit down. Then, ask the next student to try and spell that word.
5. Continue until the last student standing is the winner.

When conducting a Spelling Bee, realize that this kind of contest, while beneficial, can result in hurt feelings. Be sure to keep the mood of the Spelling Bee light, fun, and not overly competitive.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ Plastic knives, forks, spoons, cups or glasses, paper plates, and napkins
- ★ Optional – scissors, construction paper

Setting a Table Activity

While many students have eaten meals using Western-style utensils, not all of the students know how to set a Western-style table.

Before beginning this activity, review the prepositions – *in, on, under, next to*; and *left* and *right*.

- S** Make sure you have enough paper or plastic utensils for one place setting. You'll need at least one of each: plate, glass or cup, spoon, fork, knife, and napkin. Have the students gather around. Place the plate in the middle of the table and say the following as you set the table:
1. The knife is on the right.
 2. The spoon is next to the knife.
 3. The napkin is on the left.
 4. The fork is on the napkin.
 5. The glass is on the right.

After you have set the table, remove everything except for the plate and ask a student volunteer to try setting the table. Say the above steps 1–5 and have the student follow your directions. If the student makes a mistake, repeat the instruction and see if he/she can correct the mistake. After that student has successfully set the table, try it again with another student. Continue until all students have had a chance to set the table.

- B** After you have set the table, remove everything except for the plate and ask a student volunteer to try setting the table. Say the above steps 1–5 and have the student follow your directions. If the student makes a mistake, repeat the instruction and see if he/she can correct the mistake. After that student has successfully set the table, ask the students to make groups of four or five. Pass out enough paper and plastic plates, cups, and utensils for each group to have

one place setting, or have them make ones out of construction paper.

Each student in the group will take turns setting the table as you say steps 1–5. Repeat the steps until every student has had a chance to set the table.

Lesson 2 • Grammar in Action

Materials:

- ★ Cards for word flashcards

Chores Chain

Review the chores from page 26 and the *Chores* chant on page 28.

Prepare flashcards or have the students prepare flashcards with the following prompts:

feed/fish	feed/bird	set/table
wash/dishes	wash/clothes	wash/hands
vacuum/floor	vacuum/living room	
clean/house	clean/kitchen	go shopping
take out/trash	clean up/room	fold/laundry

Hold up a card for the students to see. For example, hold up the card for wash/dishes. Say, "I wash the dishes." and have the students repeat. Call on groups and individual students to repeat. Then say, "he" and encourage the students to say, "He washes the dishes." Say "hands", and the students should say, "He washes his hands." etc. This is a multiple substitution drill and the students have to remember the last sentence so they can make the necessary changes when you give them a new prompt. Try to do this at a lively pace.

Lesson 3 • Rhythms and Reading

Materials:

★ Paper

My Robot Guessing Game

Before class, take a piece of paper or card, draw a picture of a robot on one side and write what chore the robot does on the other, using the sentence form: "He/She (chore)." Show the students the paper and tell them, "This is my robot. His/Her name's _____."

Have the students turn to page 30 and review the *Verb Helpers* chant. Ask the students, "What does my robot do?" Write the following on the board: Does he (chore)? Does she (chore)? Point to the correct question, depending on whether your robot is male or female, then have the students raise their hands and take turns guessing the chore your robot does. For example, "Does your robot wash the dishes?" If they guess incorrectly say, "No, he/she doesn't." If they guess correctly say, "Yes, he/she does." and turn your card around to reveal the sentence you wrote.

Have the students make their own robot cards. Give them a 10-minute time limit. Play the *Clever Robot* chant (CD2 track 10) over and over, while the students make their robot cards. Circulate around the room to check students' progress and their spelling, and help those who need it.

Once everyone is finished making their robot card, have a student volunteer come to the front to introduce his/her robot and then have the students play the guessing game. Continue until all of the students have had a chance to come to the front, introduce their robot, and play the game.

Write ar, or, and er on the board. Then write the following:

Materials:

★ Paper

Spelling Chain

Have the students choose words from Challenge Time! on page 31. Ask them to find words with five or more letters. Circulate and help students who are having difficulties. Make sure they work on their own. When they are ready, ask them to make pairs. One of the students should spell a word and the other student has to write it and find it on page 31. For example, student A says, "s-h-o-p-p-i-n-g", student B writes *shopping* and finds it in the rhyme. You can have students use more pages in their book and add more words.

Unit 5 Yesterday and Today

Lesson 1

Finding Out Time

Materials

- ★ Numbers 1–100 poster
- ★ My Daily Routine poster
- ★ My Daily Routine flashcards – get up, go to bed
- ★ A calendar
- ★ Paper

Getting Started

- The students should say, “Hello! How are you?” to the teacher and their classmates when they enter the classroom.
- Put the Numbers 1–100 poster on the board. Tell the students to make a circle. Throw the ball to one of the students and say a random number e.g. “seventy-eight”. The student must throw the ball to a different student and say, “seventy-nine”. Have the students continue.

1 Listen and practice saying the times.

Draw a large circle on the board. Write the numbers 1–12 on the circle to make a clock. Have the students call out the numbers as you do this. Using a different color board marker or piece of chalk, write :05 (pronounced “Oh-five”), :10, :15, etc. on the outside of the clock near the numbers and have the students call out the numbers as you write them. (Note: Don’t write :60; write “o’clock” instead.) Review again what you wrote on the board and have the students repeat after you.

Have the children open their books to page 34 and listen to the CD as they point to the clocks. Play the CD again and have them repeat after the CD.

Unit 5 Yesterday and Today

Finding Out Time

1 Listen and practice saying the times.

2 Small Talk: Ask your partner and get the real answers.

1. What time do you get up in the morning?
I usually get up at ____.
2. What time did you get up yesterday?
Yesterday, I got up at ____.
3. What time do you go to bed?
I usually go to bed at ____.
4. What time did you go to bed yesterday?
Yesterday, I went to bed at ____.

34

Optional activity: Have groups of students take turns coming to the front and standing near the board. Ask students from the rest of the class, call out a time from page 34, while the group near the board take turns drawing the hands of the clock on the board correctly.

2 Small Talk: Ask your partner and get the real answers.

Play the CD and have the students listen.

Take out a calendar and ask the students, “What’s today?” Have a student point to the correct day on the calendar. Point to that day and say, “today”, then move your finger one day back and say, “yesterday”. Practice this together a few times as a class.

Take out the “get up” flashcard. Say, “get up”. Point to all the days of the week on the calendar as you say, “I usually get up at (time).” Give the card to a few different students as you ask them, “What time do you get up in the morning?” Prompt them to say, “I usually get up at (time).”

Give each student a piece of paper and have them roll up the paper to act as a microphone. Invite a student volunteer to the front to ask you these questions, "What time do you go to bed?" and "What time did you go to bed yesterday?" After you answer the questions (using the same sentence format as in Exercise 2), they should write the times on the chart. Show the students that they must ask you and two friends the questions, and then fill in the chart on page 35. Tell them they must use their paper microphone when they interview you or the students. Once they have filled in the chart, they can sit down. Go through your answers as a class.

Point to *Yesterday* on the calendar as you say, "Yesterday, I got up at (time)." While pointing to yesterday on the calendar, ask a few students, "What time did you get up yesterday?" Prompt them to say, "Yesterday, I got up at (time)."

Repeat the steps for "What time do you go to bed?" and "What time did you go to bed yesterday?"

Play the CD again and then have the students find a partner.

- S** Have the students take turns asking a partner the questions and getting the answers, while standing in front of the class. Praise each pair for a job well done.
- B** Have the students stand up and find a partner. Have them ask each other the questions and get the answers. Circulate around the room to make sure all of the students are speaking English.

Goal 33 ☒

Have the students stand up, hold their books, and make a single file line in front of you. When it is their turn, they should tell you the time from one o'clock to twelve o'clock (i.e. one o'clock, two o'clock, three o'clock, etc.). After they have said all of the times, check the box in their books.

- Put the My Daily Routine flashcards around the room in a random order where all of the students can see them. Mime an action for one of the everyday activities. When a student figures out which activity you are doing, he/she should raise his/her hand. Call on a student and have him/her pick up that card. If the student guesses correctly, say, “Yes, (everyday activity).” and have the students repeat after you. Repeat these steps until all the flashcards have been picked up.

1 Listen and practice saying the words in pairs.

Play the CD and have the students listen. Take out a calendar and ask the students, “What’s today?” Have a student point to the correct day on the calendar. Point to that day and say, “today”, then move your finger one day back and say, “yesterday”. Practice this together as a class a few times.

Point to the boys in Exercise 1. Say, “Today/get up. Yesterday/got up.” while pointing to the correct days on the calendar. Have the students repeat after you. Do the same for the rest of the verbs in the exercise.

Draw four clocks on the board with the times shown on page 39. Point to clock 1, say and write "a quarter past seven" under the clock. Have the students repeat. Do the same with the rest of the clocks. Then say the time and have the students point to the right clock. Next, invite four students to make their own Action Game. Looking at the My Daily Routine flashcards or poster, they can choose four new actions (or the same ones, if they wish) that logically go with the times. After the Action Game is finished, praise the group for a job well done and have those students choose four new students. Continue until all the students have had a chance to be in the Action

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ Paper plates
- ★ Construction paper
- ★ Paper fasteners
- ★ Scissors

Making a Clock

1. Give each student a paper plate, a small piece of construction paper, and a paper fastener.
2. Students will cut out hands for their clock from the construction paper.
3. The paper plate is the face of their clock. Have the students write the numbers 1–12 on the paper plate.
4. Attach the hands of the clock to the middle of the paper plate using a paper fastener. Help students with this, if necessary.
5. Students should write their name on the back of their clock.

Students can arrange the hands on their clock the way they like and then ask each other, “What time is it?” This clock can be used as a prop for the time activities and games in Unit 5.

Lesson 2 • Grammar in Action

Materials:

- ★ 2 clocks (from the previous activity – Making a Clock)

Time and Actions Charades

Review the verbs on page 34. Write the following on the board, “I usually _____ at ____:____. Yesterday, I _____ at ____:____.” Practice making sentences using a few of the verbs on page 36 and the times on page 37.

Divide the class into two teams. One team will set the two clocks to two different times and then one student from that team will mime an action from page 36.

If the other team can say a sentence using the present tense form of the verb and the time on one of the clocks, they get a point. If they can say a sentence using the past tense form of the verb and the time on one of the clocks, they get a point. If they can say both present and past form sentences and the two times correctly, they get three points. Teams must say complete sentences using the model sentences written on the board.

After a team has had a chance to guess and say the pair of sentences, they hand the clocks to the other team to set new times and mime a different action.

Play a few rounds of the game until all verbs on page 36 have been used. The team with the most points wins.

Lesson 3 • Rhythms and Reading

Materials:

- ★ My Daily Routine poster

My Weekday

Write the days of the week on the board and review them.

Each student must choose a day of the week and write his/her usual schedule for that day on the sheet, using the My Daily Routine poster as a guide.

Once everyone has finished with their sheet, each student should come to the front, show his/her sheet to the class and talk about what he/she usually does, and at what time he/she does it on that day.

Materials:

- ★ Paper

Spot the Missing Letters

Divide the class into pairs or groups. Have the students find words from the unit and practice spelling them. When they're ready, ask them to spell a word while the rest of the students listen, write, and spot the missing letter or letters. The first student to spot the missing letter has to say, "I've got it!", say the word, and spell it correctly. The pair or group with the most correct answers wins.

Lesson 4 • Phonics

Materials:

- ★ Three pieces of paper with "nk", "ng", and "ck" (one sound per piece of paper). Three pieces of paper per student.

Sound Race

Give each student three pieces of paper or cards and ask them to write one sound per piece of paper. Say words with "nk", "ng", and "ck" and have the students listen and hold up the paper with the sound that they think they heard. For example, you say, "wing" and the students hold up the paper with "ng". Call out more words with the sounds. Use words from page 40 and add more. Divide your class into groups and repeat the activity with each group while the other groups listen and watch. Encourage them to make corrections after all the words have been said.

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Have the students turn to page 37. Divide the class into groups and call out a number from 1 to 12. Tell the students to look at the appropriate time and say what time it is. The group with the most correct answers wins.

B Next tell the students to write different times, using the clocks on page 37. Have them write the times on a piece of paper. Have them find a partner, exchange papers, and tell each other what time it is. Circulate and help when necessary. Invite students to write some of the times on the board and call on other students to say what time it is.

Show the students that they must ask you and two classmates/friends the questions. Tell them to use their paper microphone when they interview the students. Once they have filled in the chart, they can sit down.

If a student's father has a job not covered in this lesson, encourage him/her to tell you the occupation in the native tongue and then look up the word together in the dictionary to find the English equivalent. Sometimes jobs do not translate well for linguistic or cultural reasons. Therefore, don't worry if you can't translate it exactly.

If there is enough space in your classroom, have students mingle and ask other students. Have each student report his/her friend's answers and guess the job he/she wants to do. Invite the friend to confirm or disagree by saying what they want to do.

Optional activity: Say, "Can you guess my job? When I grow up, I want to be a ____." Then, act out a job. Students must raise their hands to guess your job. When you call on a student, he/she must say, "I know! You want to be a ____." If the student's answer is correct, say, "Yes, that's right! I want to be a ____." If the student's answer is incorrect, say no and choose another student.

Invite four students to come to the front and act out the jobs. Students must use the same language pattern as in your demonstration. Point to the boy on the board and mime a job, for example, an astronaut. Elicit, “He’s an astronaut.” Invite a student to come to the front of the class and demonstrate. Use the jobs on page 42, numbered from 1 to 15. Invite each student to come to the front. Have one of the other students shout out a number at random, for example, 6. Space Station Crew

Chant the *Space Station Crew* chant. Divide the class into groups or let each student do this activity individually. Give each group (or student) a piece of paper and let them choose a job. They have to come up with a new verse of the *Space Station Crew* chant.

Each group (or student) has to:

1. Write a name for their crew member.
2. Write the sentence, “He’s/She’s a (job).”
3. Write where they work.

Students will likely need help with step 3. Therefore, circulate around the room and teach the students how to say and spell the workplaces of their crew members.

Workplaces: astronaut – space station; architect, engineer, computer technician, businessman, lawyer – office; pilot – airport; nurse, doctor – hospital; cook – restaurant; diver – the sea; teacher – a school; firefighter – fire station; housewife, writer – at home; baker – a bakery; TV presenter – a TV station; scientist – a laboratory; football player – field/court/stadium

Once everyone is finished, each group (or student) can perform their new verse of the chant. Praise each group for a job well done.

Have each student mime his/her father's job. Encourage the students to use props, e.g. paper hat or toy stethoscope. The rest of the students have to guess what the job is and say, “He's/She's a _____.”

When a student guesses correctly, reveal what card you are holding and say, “Yes, he's/she's a _____.” That student then comes to the front, chooses a card, and asks the students, “What does he/she do?” and the game continues.

Unit 7 Fun on the Weekend

Lesson 1

Finding Out Time

Materials

- ★ A calendar

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.
- Have the students tell each other about their daily routines and compare times and activities. Elicit some of the activities from the students and write them on the board.

1 Listen and practice. Then do it in pairs.

Have the students open their books to page 50. Play the CD and have the students point to the pictures and words as the talk is played.

To convey the idea of past tense, write the words *clean*, *practice*, *watch*, *kick*, *play*, *study*, *cook*, and *stay* in a horizontal column on the board. Take a calendar and ask a student to point to today. Point to the day before and say, "Yesterday". And then point to the weekend before and say, "The weekend". Then say, "I cleaned my room yesterday," as you write the "ed" on the end of the word "clean" with a different-colored chalk (or underline the "ed").

Next, say, "I cleaned my room over the weekend," as you write the "ed" on the end of the word "cleaned" with a different-colored chalk. Continue with the other verbs on page 50, making sentences using "over the weekend" or "yesterday". (You'll need to erase the "e" on the end of the word "practice" and write a new "ed").

The "y" in "study" changes to "i" before you add "ed" because the letter before it is a consonant. The "y" in "play" or "stay" stays the same when you add "ed" because the letter before it is a vowel.

Go over the different comments in the speech bubble, starting with, "That's boring." Say each comment twice with exaggerated intonation and facial expressions. After you say each one, have the students draw a quick face to help them remember what the comment means.

Play the CD again and have the students point to the pictures and words as the talk is played. Ask a student volunteer to come to the front. Say one of the past tense verb sentences and prompt the student to make a comment. Then switch parts.

Next, have the students make pairs. One student will say one of the past tense verb sentences and the other will comment. Then, have them switch parts. Ask one of the students to choose and mime one of the activities. Their partner or the rest of the

Goals 49 and 50 ☒

Combine these two goals for this lesson. Have the students make pairs. The first student should ask the other, "What did you do over the weekend?" The second student answers and then the first student makes a comment. Then, have the pair switch parts. Once they have finished, they can raise their hands and say, "We're finished!" Once a pair is finished, check the box in their books.

Audio script page 164

After Verb Game 1 is played, have the students write the same words in a different order in the Verb Game 2 card. Play the CD and have the students circle or check the words when they hear them. When a student only has one more to go, he/she should say, "Only one more!" When a student gets five words, he/she should say, "Got it!" Have him/her read the answers. (If no one got five words after the CD track is finished, call out other words yourself.) Play a few rounds of the game, calling out the words yourself. When a student gets five words, remind him/her to say, "Got it!" Then have him/her read the answers.

3 Listen and practice. Then do it in pairs. Audio script page 164

Play the CD and have the students listen as the point to the words in the chart. Point out that some regular past tense verbs end with a /t/ sound and others end with a /d/ sound.

Tell the students to pair up. Then have them practice saying the verbs and doing the gestures as their partner repeats them, as heard on the CD. Then, have them switch parts.

Hand out word cards (or pieces of paper with the verbs) for Weekend Activities randomly. Ask one student to stand on one side of the room and make the /t/ sound. Ask another student to stand on the other side of the room and make the /d/ sound. Looking at the chart, the students holding the cards can say the past form of the verb and go to the correct side of the room. Once they have completed this task, praise them and review how the regular past tense verbs are pronounced, as shown in the chart.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ Pictures or photos with weekend activities
- ★ Index cards or heavy construction paper for verb flashcards

Verb Guessing Game

Review the sentences and past tense verbs on page 50 using the pictures in the book, or your own photos or pictures. Review the present and past tense forms of the verbs. Make verb flashcards on cards or pieces of paper. Next, secretly choose a verb flashcard. The students have to guess which verb flashcard you are holding by saying one of the sentences on the page. When a student says the correct sentence, say “Yes!” and show him/her the verb on the card. Then, have that student say the present and past tense forms of the verb. Invite that student to the front to choose a card and continue playing the game.

Continue the game until all students have had a chance to come to the front and choose a verb card.

Lesson 2 • Grammar in Action

Materials:

- ★ Verb flashcards

Flashcard Miming Game

Review the sentences, verb chunks, and the past tense verbs on page 52. Place the verb cards face down on a desk. Have students take turns picking a card and miming the activity. Their partner should say what he/she did over the weekend. Then have them switch roles.

Lesson 3 • Reading and Writing

Materials:

- ★ Heavy construction paper or index cards
- ★ An envelope or resealable plastic bag (per student)
- ★ Small pieces of paper for numbers

Past Tense Verb Cards Project

This is a card making project to help the students learn and remember past tense forms of verbs. This project will continue through Extension Activities in this teacher's guide. To ensure that the students do not lose their cards, have them store the cards in an envelope or resealable plastic bag and keep the cards in a box in the classroom or other safe place.

Have each student cut out 17 cards of uniform size from the heavy construction paper or index cards. On one side of each card, they should write the verb and the past tense form of the verbs that they learned from this unit on pages 50 and 52. On the back, they should write their name or initials. (For example, the students should write *clean – cleaned* on the front of the card, and their name/initials on the back.)

After the students have written their cards, they can play games with a partner. Here are two suggested games:

1. Lay out the cards in a row to make a board game. Pick a number from a bag and use erasers as game pawns/markers. When you land on a card, you must say the verb and the past tense form of that verb. The first person to get to the finish line is the winner!
2. You and your partner should mix your own set of cards well. Then lay your cards face down and lay your partner's cards face down next to yours. Turn over one of your cards and say the verb and the past tense form of that verb. Then turn over one of your partner's cards. If you turn

over the card with the same verb, you get to keep both cards. If you turn over a card with a different verb on it, place both cards face down in their original positions. The student with the most pairs of cards at the end of the game is the winner!

Once the students have finished playing with their cards, have them put the cards in their envelope or plastic bag and store in a safe place, such as in a box in the classroom. The cards will be reused for the next unit's Extension Activities.

Lesson 4 • Phonics

Phonics Sounds Game

Review the sounds *nd* and *nt* on page 56. Have the students chant and mime the chant on page 56.

Then give them the starting lines of a different version:

There are plants all around,
There are plants on the land ...

Have the students find a partner and write the rest of the chant. Tell them that they will present their chant later in class. Ask them to rehearse saying and miming the chant with their partner. Invite pairs to come to the front and chant. Encourage the students to mime as they chant.

Spelling Game

Say a word from the following list:

suits	mangos	snowboards
coats	grapefruit	skis
boots	oranges	snow
shoes	juicy	
sandals	fruit	

Have a student from a group spell the word while another student writes it on the board. Ask the other groups to check, agree or disagree, and correct if there's a mistake. Keep score for each group on the board.

Take a calendar and ask a student to point to today. Then, point to the day before and say, "yesterday". Point to the year and elicit it. Then say the number of the previous year and say "last year".

Make a new horizontal column to the left of your old column and write the number of last year and the words *last year* at the top. Then write the irregular past tense verbs next to the regular forms as you say the verbs. Point to the verbs, say the sentences on page 58, and have the students repeat after you.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ Verb flashcards from Unit 8 (on index cards or pieces of heavy construction paper)

The Comment Game

Review the irregular past tense verbs, sentences, and comments on pages 58 and 59. Then, put the verb flashcards in a place where the students can easily see them.

Divide the class into two teams. Have a student from one team call out a comment from page 59. The other team has to decide which good or bad thing would match that comment, grab the correct verb flashcard (in present tense), and say the sentence (with the past tense verb) from page 58. Then, they should put the flashcard back in its original position. Next, have the other team call out a comment and continue the game.

When playing this game, make the students aware that there is more than one comment that would be appropriate for different good or bad things.

Lesson 2 • Grammar in Action

Materials:

- ★ Board

Past Tense Verb Relay

Review the past tense irregular verbs on page 60.

Invite eight student volunteers to the front. Divide them into two teams of four and have them stand in two lines.

Say a verb in past tense irregular form to one team, and another verb (in past tense) to the other team. Then say, "Go!" The teams must go to the board,

and write the irregular past tense form of that verb. (If they misspell the irregular form, they must go back to their desk and look at their books. They can only look at their books at their desk.) Once the first student in line has completed this, they go to the back of their team's line. Tell the next student in line a verb in past tense.

The first team to get all the verbs and write the past tense irregular form of the verbs on the board wins!

Do the relay, but have the entire class be on the same team. Do the relay once and time the students. Do it again and see if they can beat their own time.

Once a group of eight students has completed a round of the game, invite eight more students to come to the front and play. Continue until all students have had a chance to play.

Lesson 3 • Reading and Writing

Materials:

- ★ Heavy construction paper or index cards
- ★ An envelope or resealable plastic bag (per student)
- ★ Small pieces of paper/slips with numbers

Past Tense Verb Cards Project

This is a card making project to help the students learn and remember past tense forms of verbs. This project will continue through to Unit 11 Extension Activities. To ensure that the students do not lose their cards, have them store the cards in an envelope or resealable plastic bag and keep the cards in a box in the classroom or other safe place.

Have each student cut out 10 cards of uniform size from the heavy construction paper or index cards. On one side of each card, they should write the verb and the irregular past tense form of the verbs that they learned in this unit on pages 58, 60, and 62. On the back, they should write their name or initials.

After the students have written their cards, they can play games with a partner. Students can use only these cards or combine them with the cards they made in Unit 7, Extension Activities, Lesson 3. Here are two suggested games:

1. Lay out the cards in a row to make a board game. Pick a number from a bag and use erasers as game pawns. When you land on a card, you must say the verb and the past tense form of that verb. The first person to get to the finish line is the winner!
2. You and your partner should mix your own set of cards well. Then lay your cards face down and lay your partner's cards face down next to yours. Turn over one of your cards and say the verb and the past tense form of that verb. Then turn over one of your partner's cards. If you turn over the card with the same verb, you get to keep both cards. If you turn over a card with a different verb on it, place both cards face down in their original positions. The student with the most pairs of cards at the end of the game is the winner!

Once the students have finished playing with their cards, have them put the cards in their envelope or plastic bag and store in a safe place, such as in a box in the classroom. The cards will be reused for the next unit's Extension Activities.

Lesson 4 • Phonics

Materials:

- ★ Large pieces of paper with *f*, *ph*, and *gh* (written on separate pieces)

Four Corners Race

Place the three pieces of paper in three different places/corners in the classroom or on the board of the classroom. Call out a word and have the students run to the place/corner where the correct letter is. Then have the students remember, say the words, and spell them. Next have the students play "teacher" and call out words.

Choose words from the following list:

friend	fries	frog
funny	fun	fish
phone	elephant	photo
laugh	enough	tough

Materials:

- ★ Six pieces of paper (per student)
- ★ Scissors

Lesson 4, Activity 2

I, my, me ...

Draw a stick figure for a boy and a stick figure for a girl on the board. Gesture and say the rhyme with the students. Elicit as much as possible from them through gestures and mime. Point to yourself, to the students, to you and a student, to the stick figures, etc. to demonstrate and elicit different pronouns. Say and write the rhyme in jumbled order on the board and have the students copy. Give them time to number the lines in the order they think is correct. Ask them to compare with a partner. Then say the rhyme again and have them check. Change the word to "hear" or "call" and repeat.

You can see me.

I can see you.

We can see him.

We can see her.

They can see us.

You saw them.

They saw all of us.

Before the students start writing, put up the My School poster and take the students "on a tour" of the school. Use these expressions with the names of different rooms and classrooms: "This is the Teachers' Lounge." "That's the Science classroom." Have the students draw a plan of their school and label different places. Circulate and help when necessary.

Next, have students write about their school using the text on page 73 as a model. Remind them to use punctuation, i.e. a full stop at the end of each sentence and commas when they list things. Point out punctuation used in the model. Encourage students to help each other as they write. Then have them exchange and make corrections on each other's texts.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ My School poster

School is Cool

- S** Put up the My School poster. Divide the class into groups. Then invite groups to take turns standing up and studying the poster. Tell them to make notes if they wish. Explain that they will have to describe one of the rooms in the school without mentioning which room it is. The rest of the groups will have to listen carefully and try to find the room. Encourage them to notice details about the room.
- B** Next turn the poster over or take it down while the students prepare in groups. Call in groups to describe the room of their choice for the rest of the class. The group that guesses first wins.

If you wish, you can play a different version with questions and answers. Groups ask up to 6 questions to try and find out as much as they can about the room and then answer.

Lesson 2 • Grammar in Action

Materials:

- ★ A calendar
- ★ Paper

My School Schedule

Review the days of the week using a calendar.
Review the school subjects on pages 68 and 70.

Draw the following chart on the board:

Sunday	Monday	Tuesday	Wednesday	Thursday

Hand out a sheet of paper to each student. Ask the students to copy the chart onto their paper. Then, have them write the subjects they study at school each day of the week in the chart.

Once students have completed their chart, have them take turns standing up, holding up their chart, choosing a day of the week, and saying, “On (day of the week), I have (subjects.)” Praise each student for a job well done after he/she has finished.

Lesson 3 • Reading and Writing

Materials:

- ★ Heavy construction paper or index cards
- ★ An envelope or resealable plastic bag (per student)

Past Tense Verb Cards Project

This is a card making project to help the students learn and remember past tense forms of verbs. This project will continue through to Unit 10 Extension Activities. To ensure that the students do not lose their cards, have them store the cards in an envelope or resealable plastic bag and keep the cards in a box in the classroom or other safe place.

Have each student cut out 5 cards of uniform size from the heavy construction paper or index cards. On one side of each card, they should write the new verbs and irregular past tense form of the verbs that they learned in this unit (do–did, are–were, like–liked, follow–followed, and make–made). On the back, they should write their name or initials.

After the students have written their cards, they can play card games with a partner. Students can combine these cards with the cards they made in Units 7 and 8, Extension Activities, Lesson 3. Here are two suggested games:

1. Lay out the cards in a row to make a board game. Take a piece of paper with a number from a bag and use erasers as game pawns. When you land on a card, you must say the verb and past tense form of that verb. The first person to get to the finish line is the winner!
2. You and your partner should mix your own set of cards well. Then lay your cards face down and lay your partner's cards face down next to yours. Turn over one of your cards and say the verb and the past tense form of that verb. Then turn over one of your partner's cards. If you turn over the card with the same verb, you get to keep both cards. If you turn over a card with a different verb on it, place both cards face down in their original positions. The student with the most pairs of cards at the end of the game is the winner!

Once the students have finished playing with their cards, have them put the cards in their envelope or plastic bag and store in a safe place, such as in a box in the classroom. The cards will be reused for the next unit's Extension Activities.

Lesson 4 • Phonics

Phonics Sounds Game

Review the *sc*, *sk*, and *sq* sounds on page 72.

Write *sc*, *sk*, and *sq* on the board.

Say a word from the following list:

scarf	sky	square
scan	skate	squeeze
scary	skirt	squid

Students must listen and then point to the correct letters on the board. Tell the students the answer and praise those who got it right. Then write the word under the correct letters. Have the students spell the word as you write it. Continue with the rest of the words from the list.

Materials:

- ★ Large sheets of paper
- ★ Scissors, crayons or markers

Poster Project – My School

Have the students make pairs or groups. Give each pair/group a large sheet of paper and ask them to draw their school. Put up the My School poster and tell them to draw their school in a similar manner. Give them time to draw the walls and separate the rooms. Encourage them to share the rooms so that each student/pair has to draw the interior of one room. Let them decide who is going to do what and tell them that they will have the time to complete in the next lesson. Have the students write their initials on the back of the poster and roll it up. Store the rolled-up posters safely for future use.

Unit 10 A Healthy Life

Lesson 1

Finding Out Time

Materials

- ★ A Healthy Life flashcards
- ★ Verb flashcards
- ★ A ball
- ★ A calendar

Getting Started

- The students should say, "Hello! How are you?" to the teacher and their classmates when they enter the classroom.

Say the regular form of the verb and then throw the ball to a student. The student who catches the ball says the past tense form. Then motion for the student to throw the ball back to you. Continue the game by throwing the ball to other students and saying different verbs. The students should always throw the ball back to you.

- The students should say, “Hello! How are you?” to the teacher and their classmates when they enter the classroom.
- Review the previous phonics lesson from page 72. Write *sc*, *sk*, and *sq* on the board and have students say and spell words that begin with the correct letters. Then divide the class into three groups, one for each pair of letters. Say a word. The students have to listen and say “ours” as quickly as possible if the word is written with the letters that they have. For example, the *sc* group hears the word “scary”. It has to say “ours” immediately. If they delay, another group has the right to spell the word and gain points for their group/team.

 The sounds *ar*, *or*, *ur*, and *ir* are called **vowels with R**. They are sometimes also called **murmuring vowels**.

Play the CD as the students look at page 80 and point to the words and pictures. Slowly go over how to say each sound together. Point out that *ur* and *ir* make a similar sound.

Say the sounds slowly together. Then, play the CD again and say them along with the CD.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ A Healthy Life flashcards
- ★ Action Verb Chunks flashcards – drink a lot of water, eat three meals a day
- ★ A bag

A Healthy Life Flashcard Grab

Put the A Healthy Life and Action Verb Chunks flashcards into a bag. Divide the class into two teams and give each team 10 points to start the game.

Have team members take turns picking a flashcard from the bag. If the card depicts something they should do to live a healthy life, they should say, “I should (action on card).” and the team gets two points.

If the card depicts something they shouldn’t do to live a healthy life, they should say, “I shouldn’t (action on card).” and the team loses one point.

Once all the cards have been drawn from the bag, tally up each team’s points and determine the winner.

Lesson 2 • Grammar in Action

Materials:

- ★ Heavy construction paper or index cards
- ★ An envelope or resealable plastic bag (per student)

Past Tense Verb Cards Project

This is a card making project to help the students learn and remember past tense forms of verbs. This project is featured in the Units 7 to 10 Extension Activities. To ensure that the students do not lose their cards, have them store the cards in an envelope or resealable plastic bag and keep the cards in a box in the classroom or other safe place.

Have each student cut out 4 cards of uniform size from the heavy construction paper or index cards. On one side of each card, they should write the new verbs and the regular or irregular past tense forms of the verbs that they learned in this unit (talk–talked, brush–brushed, eat–ate, and drink–drank). Students can make two additional cards for the verb chunks *get up–got up* and *go to bed–went to bed*, if they wish. On the back of the cards, they should write their name or initials.

After the students have written their cards, they can play card games with a partner. Students can combine these cards with the cards they made in earlier units. Here are two suggested games:

1. Lay out the cards in a row to make a board game. Take a piece of paper with a number from a bag, and use erasers as game pawns. When you land on a card, you must say the verb and the past tense form of that verb. The first person to get to the finish line is the winner!
2. You and your partner should mix your own set of cards well. Then lay your cards face down and lay your partner’s cards face down next to yours. Turn over one of your cards and say the verb and the past tense form of that verb. Then turn over one of your partner’s cards. If you turn over the card with the same verb, you get to keep both cards. If you turn over a card with a different verb on it, place both cards face down in their original positions. The student with the most pairs of cards at the end of the game is the winner!

Once the students have finished playing with their cards, have them put the cards in their envelope or plastic bag. Students can take them home to show their parents or store them in the classroom for future practice.

Lesson 3 • Reading and Writing

A Healthy Life Game

Hand out large sheets of paper to pairs or groups of students and have them create a board game with verb chunks and other verbs from earlier units. Explain that they have to mix the verbs from the different units. Have them use erasers or other objects as markers and slips of paper with numbers from 1 to 10 in a bag.

Students take a number and move on the board. When they land on a square with for example, “wake up early”, they have to say the opposite, i.e. “I didn’t wake up early in the morning. The student next to them has to respond and say, “You should wake up early. It makes you healthy.” If they land on a negative chunk, for example, wake up late, and say “I didn’t wake up later, or I woke up early” they score a point and have the right to play again. The student with the most points wins. Explain that when a student who has to respond and give advice, e.g. “You should” fails to do so, they miss their turn.

Lesson 4 • Phonics

Materials:

- ★ A piece of paper (per student)

Phonics Dictation

Review the phonics sounds and words on page 80 and read them together. Introduce these other words with the *ar*, *or*, *ur*, and *ir* sounds: *art*, *dark*, *fork*, *sport*, *short*, *skirt*, and *girl*.

Ask the students to fold a piece of paper once lengthwise and then seven times widthwise to divide the paper into 16 sections. Then, do the dictation on the piece of paper. They should write one word per section. Call out the following words, saying each word three times:

- | | | |
|----------|------------|-----------|
| 1. park | 7. fork | 13. bird |
| 2. farm | 8. sports | 14. shirt |
| 3. art | 9. short | 15. skirt |
| 4. dark | 10. purple | 16. girl |
| 5. horse | 11. turtle | |
| 6. corn | 12. burger | |

Then, have the students check and correct any wrong answers on their sheet.

Ask the students to write their name at the top of the sheet and then collect them to use for the next Extension Activity – Phonics Memory Game.

Materials:

- ★ Students’ Phonics Dictation sheets (from Phonics Dictation)
- ★ Scissors

Phonics Memory Game

Pass back the Phonics Dictation sheets which the students did in the previous activity – Phonics Dictation. Have the students cut out the 16 sections to make 16 cards, write their names on the back of them, and then mix them up.

Ask the students to find a partner to play this game with. The pair mixes up all 32 of their cards, and then places them face down and flips over two cards at a time, reading the words after they flip the cards over. If they flip over two matching cards, they get to keep those two cards. After all of the matching cards have been found, the student with the most matching pairs wins.

Circulate around the room to make sure the students are reading the words on the cards as they flip them over.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ Paper

My Neighborhood

Pass out a blank sheet of paper to each student. The students need to look at page 82 and then think about the places in their own neighborhood.

Have them draw 4 boxes and think of four places. Next, have them draw a picture of them in the boxes, and write what they are over the boxes. Then, they should write “It’s far from my house.” if the place is far away and not within a walking distance, or write “It’s a ____-minute walk.” if it is nearby and within a walking distance. Then have them write how many minutes it would take to walk there in the blank.

After students have completed their sheet, they can present it to the class. Praise each student after his/her presentation.

Lesson 2 • Grammar in Action

Materials:

- ★ My Town flashcards

Shopping in My Town Flashcard Activity

Review the My Town flashcards.

Put the place flashcards around the room, face up. Then pass out item cards to the students.

Say, “Go shopping!” The students have to look at the item(s) on their flashcard and then stand by the place flashcard where they can buy it.

Once all students are standing in the right place, have each student hold up his/her flashcard and say, “I want a/some (items). I’m going to the (store/place).”

S For classes with less than 10 students, do the activity two or three times. Make sure that all flashcards with an item you can buy at a store are used at least once.

B Take turns doing the activity in groups of 10.

Lesson 3 • Reading and Writing

Materials:

- ★ Paper

Picture Dictation

Pass out a sheet of paper to each student. Ask the students to follow your directions and draw exactly what you say. Begin with, “Draw a house in the middle of the paper.” Continue with:

Draw a tree next to the house.

Draw two birds in the sky.

Draw a fence around the house.

Draw a door and two windows.

You can make this picture dictation easier or more difficulty depending on how much you think your students can do. Demonstrate by saying and drawing on the board to show them what to do if necessary.

Lesson 4 • Phonics

Materials:

- ★ A piece of paper (per student)

Phonics Dictation

Review the *u_e* and *ue* sound from page 88.

Give the students a piece of paper each and have them write their name and then draw two columns on their paper. Have them write *u_e* at the top of one column and *ue* at the top of the other column.

Call out one of the following words:

tissue	cute	blue	Thursday
huge	glue	barbecue	June

Students should write this word in the right column. Continue calling out the rest of the words from the list.

Call on students to spell the words as you write them on the board for students to check their spelling.

Materials:

- ★ Paper or large index cards

Phonics Race

Ask the students to draw a grid like the one in The Shopping Game on page 85. Explain that they only need a total of six squares so their grid has to be 2 by 3. Have the students choose six of the words from the list in Phonics Dictation and write them in any order they like in their grid.

Use the word list in the last activity – Phonics Dictation. Call out one of words.

When a student hears four of his/her words and checks them he/she should shout, “Done!” Have the student read out his/her three words in a row. Then, play again and have that student call out words from the list.

Extension Activities

Lesson 1 • Finding Out Time

Materials:

- ★ World Map poster
- ★ Colored paper
- ★ Blank paper
- ★ Optional – a small photo (head shot) of each student

Make a Passport

Give each student a a blank sheet of paper or copies of a sheet that has the following headings to fill in:

Name:	[photo]
First _____	
Middle _____	
Last _____	
Country _____	
Date of birth _____	
City/Town _____	
Phone number _____	
Eye color _____	

Then tell them to use the colored paper to make a cover for their passport. Next, put up the World Map poster and draw a sample passport cover on the board for the students' reference.

Then hand out blank paper to the students and tell them to add four blank pages to their passport. They should staple the cover, passport information page, and the blank pages together to make a passport. On each blank page, have them write "I'm going to (country)." and fill in the name of a country that they would like to visit. They can refer to the World Map poster to check the spelling of the countries.

Collect the finished passports from the students. They will be used for the next Extension Activity – Going Through Immigration.

Lesson 2 • Grammar in Action

Materials:

- ★ World Map poster
- ★ Students' passports (from the last activity – Make a Passport)
- ★ Stamps and stickers

Going Through Immigration

Pass back the passports to the students. Ask them if they have ever been overseas and used their real passport. Ask them if they remember going through immigration or Passport Control.

Put up the World Map poster and have individual students come up and point to the countries they visited.

Write the following questions on the board as you review them with the class:

1. What's your name?
2. When were you born?
3. Which city do you live in?
4. What's your telephone number?
5. Where are you going?
6. What are you going to do there?

Ask a student volunteer to come to the front with his/her passport and ask him/her the questions on the board. After the student has answered the questions, stamp the correct page in their passport or put a sticker in the designated place.

S Students take turns being the immigration officer. The other students should "go through immigration" twice. The first time the immigration officer will stamp page 3 (the first page with "I'm going to (country).") of their passports and the second time he/she will stamp page 4.

B Divide the class into groups of four. Students take turns being the immigration officer. The other students should "go through immigration" twice. The first time the immigration officer will stamp page 3 (the first page with "I'm going to (country).") of their passports and the second time he/she will stamp page 4. Circulate around the room to make sure students are speaking English and to help students who need it.

Lesson 3 • Reading and Writing

Materials:

- ★ Pictures of famous landmarks in the Middle East
- ★ World Map poster

Famous Landmarks Guessing Game

Show the class the pictures of the famous landmarks and see if the students can tell you what city or country they are in on the World Map poster. Match the famous landmarks to the cities or countries.

Then write the following sentence on the board: “You’re going to visit _____ in _____.”

Secretly choose one of the famous landmarks from the pictures. Play a guessing game. Using the sentence pattern you wrote on the board, have the students guess what famous landmark you chose. When a student guesses it correctly, he/she can come to the front and secretly choose a famous landmark. The other students should guess the landmark he/she chose.

Continue the game until all the students have had a chance to come to the front and choose a landmark.

Lesson 4 • Phonics

Materials:

- ★ Blank paper

Word Puzzle

Hand out blank sheets of paper and have the students draw an 8 by 8 grid. Explain that they are going to use it to make their own word puzzle by writing words that go down and across. Point out that there should not be any blank boxes in the grid. Circulate and help students who need it. Then have students exchange word puzzles. Ask them to find as many words as they can and circle them. The circled puzzles have to be returned to the pair that wrote it to check the words. Set a time limit for pairs to find and circle the words.

Materials:

- ★ A3-size paper
- ★ Optional – a calendar

Last Week Activity

Review the months of the year. Ask a student to name the current month. Then ask another student to write today’s date. (Note: Use a current calendar, if necessary.)

Hand out a sheet of A3-size paper to each student. Tell the class to draw a grid for this month on the sheet. They can refer to the calendar to copy the month grid onto their sheet. (Note: If last week was in the month prior, then the class should draw a grid for last month rather than this month.)

1. Have the students write the name of the month at the top of their sheet.
2. Ask the students what the days of the week are. Have them write those in the spaces at the top of their sheet.
3. Ask how many days are in the month. Count up to that number by ordinals (first, second, third, etc.). Then ask what day of the week the first of the month was and have them start writing the ordinals in the calendar from that day.
4. Now that the calendar is prepared, ask the students to think back to last week and remember what they did. Using the past tense verbs they have learned in this book, students must remember three things they did last week and write the sentences in the space on the day they did them.
5. Students take turns and stand up at the front of the class and present what they did last week. (For example, “Last week, I cooked a big breakfast on Thursday, March 15th.”)

Vowel Digraphs and Murmuring Sounds

1 Listen and say.

Have students listen and say along with the CD. Pause after each group of words, for example, ou, oo, au, oi, etc. to give students time to repeat again if necessary. Make sure students focus on pronunciation.

2 Point and say the key words. Then listen and check.

Have students form pairs and read the words to each other. Call on individual students to say the words in class. Then have students listen and check. Pause and ask students to repeat words from time to time to make sure they all remember how to say/read words with vowel digraphs and murmuring sounds. Ask students to identify digraphs that sound the same, for example, ou and ow, au and aw. If necessary, spend more time on murmuring sounds, i.e. ar, or, ur, -or, wor, -er, helping students pronounce them correctly.

3 Spelling Bee. Write and say as many words as you can with Vowel Digraphs and Murmuring Sounds. Play in class.

Ask students to form pairs or groups and prepare for the Spelling Bee. Have them brainstorm for 2 or 3 minutes, and then say and spell words while their partners check. Say a word with a Vowel Digraph or a Murmuring Sound and have a member of a group spell it while the rest of the class listens and agrees or disagrees. Every time a student makes a mistake, he/she has to leave the game. The group with the last student standing or with the most students wins.

Optional Activity: Ask students to make pairs or groups and assign a unit per pair or group. Tell them to look through the unit they have been assigned and find more examples of words with vowel digraphs and murmuring sounds. You can assign this activity as homework and check the students' work in the next lesson.

Have students listen and say along with the CD. Pause after each group of words, for example, sh, ch, ph, etc. and call on individual students to read/say the words. Remind students that the best way for them to remember the sounds of digraphs is to think of words that they know how to say and spell correctly.

2 Point and say the key words. Then listen and check.

Point to the sounds in the Phonics Toolbox and elicit words that begin with the sound from students. For example, point to s and elicit sun, sea, etc. Then point to sh and elicit ship, shop, etc. Follow the same steps with the rest of the single letters and combinations/digraphs in the Toolbox.

Have students form pairs and read the words to each other. Call on individual students to say the words in class. Then have students listen and check. Pause and ask students to repeat words from time to time to make sure they all remember how to say/read words with consonant digraphs. Help them pronounce digraphs that might be challenging for them, such as th (voiced and voiceless), and -ng.

2 Point and say the key words. Then listen and check.

Have students form pairs and read the words to each other. Call on individual students or pairs to say the words in class. Play the CD and have students listen and check. Play again and pause to let students repeat groups of words. Ask students to identify silent letters, for example, wr in write; the silent letter is w.

Optional Activity: Mime and Spell. Mime words with silent letters and have students say and spell them. Have two students write the words on the board as they are being spelt. Then ask groups to think of more words with these sounds or give them time to look through their books and find more.

3 Listen and complete.

Point to the pictures and ask students to talk about them. Ask them to say what each child is doing and to name what both pictures have in common.

Establish that the children cannot see each other.

This listening task is not difficult, but the meaning might be challenging for both teachers and students who are not native English speakers. These two exchanges are jokes, called "knock, knock jokes", that are a play on words and are very common in English-speaking countries. "Lettuce" here stands for "Let us" while "Isabel" stands for "Is a bell...?"

Play the CD and have students listen and complete, using the words in the box.

Students can follow the pattern and try this exchange in pairs:

A: Knock, knock!

B: Who's there?

A: It's _____ (any name)

B: _____ (the name mentioned by A) who? (asking his family name)

A: _____ (name and family name)

Teaching Tips • Flashcards

Flashcards can be used to present, elicit, prompt and practice language. They make language, along with other visuals and/or objects, more memorable and activities more fun and more learner-centered.

- When presenting a word for the first time, for example, “shark” hold up the flashcard, say “shark” and have the class repeat. Do the same with “octopus”. Then hold up the “shark” card and elicit “shark” from a student or group and ask more students to repeat; do the same with “octopus”, etc. Follow the same procedure with the rest of the sea animal cards. As you add more animals have the class, groups, pairs, and individual students say the word for each animal and mime, spell or point to it in their book or hold up a card with the word on it.
- Put the picture flashcards on the board with tape or adhesive putty that can come off easily. Say a word and have students point to the right picture/flashcard. Then invite students to “play teacher”.
- Write a number of words on the board. Leave enough space between them. Distribute flashcards to individual students and have them come up and stick them next to or above the right words, e.g. the flashcard for “astronaut” over the word “astronaut”.
- Stack the flashcards and hold them face down for students to pick one. Ask them to say the first letter and word family, e.g. sports, for the rest of the class/groups to guess the word. If they say the wrong word, the card holder keeps the flashcard and picks another one. The student with most cards wins. If the card holder gives the wrong letter or mimes badly, he/she has to return the flashcard and put it at the bottom of the stack.
- Use flashcards in every lesson to recycle and help students remember what was presented/practiced. Organize the students into groups and manage such activities as games.
- Use flashcards to play Word Finder. Make word cards for the students with 6 to 8 words. Make sure some of the words overlap. Hold up a picture flashcard, and have students who can

find the word in their cards cover it with an object, e.g. an eraser, pen, slip of paper, a bean. The student that covers all his/her words first is the winner, if he/she can also say and spell the words correctly.

- Distribute flashcards to students at random. Say a word and have students hold up the right flashcard and repeat the word.
- Use flashcards to prompt language. For example, hold up the flashcard for “astronaut” to prompt “He travels to space”.
- At the end of each lesson, have a different student pick a card at random, name what is illustrated and use the word as the password for the next lesson, especially if the students come into class after a break.
- Flashcards can also be used in combination with other resources, for example, posters or objects. Overall, remember not to say the word as you show the card unless you are presenting or cannot elicit it from the students.
- Flashcards help us illustrate meaning and increase opportunities for students to speak. It is very disappointing for students to know a word or sentence, to want to say it and not be given the opportunity to do so.

Teaching Tips • Posters

Posters can also be used to present and/or practice language as mentioned in the lesson notes.

- Put posters up on the walls of your classroom for the students to see and be exposed to on a more permanent basis. This way you will be able to use them for quick activities when you want to change pace or get the children to move and play games.
- Posters are a great support when you want to get the children’s attention while presenting or explaining. For example, after you demonstrate classroom language and have students listen and do, get them to listen as you point to the poster before you ask them to open their books and look at the corresponding pages.
- **Sea Animals poster:** Let students look at the poster for 1 minute and turn it over. Have students work in pairs or groups trying to

remember the animals they saw and writing a list on a piece of paper. Turn the poster over and let students look at the picture and check their lists. The group/pair that has remembered and listed most of the sea animals is the winner.

Option: Cover the words on the poster with paper. Have students come to the board and write the names of the sea animals. Uncover and invite students to compare and correct words if necessary.

- **Numbers 1–100 poster:** Give the students 2 minutes to look at the poster and try to memorize what they see. Then fold half of the poster and put it up with only one half showing. Students try to draw and/or say what they remember seeing in the hidden part.

Options:

1. Have the students make a short list of fruit and vegetables that they want to buy. Ask them to make pairs and role play/ act out shopping dialogues.
2. Let the students choose a fruit or vegetable from the poster. Ask them to try and describe it as best they can in order to “buy” it. The rest of the class try to guess which fruit or vegetable it is.

- **Ordinal Numbers poster:** Put the students in pairs or small groups and ask them to imagine that they are hiding somewhere in the poster or choose to be one of the cartoon characters. Have them think about what they can see from their hiding place, or from where they stand and tell the class. The rest of the students have to say where they are hiding or who they are.

Option: Write numbers from 1 to 20 on small pieces of paper. Fold them and place them in a bag. Have students look at the poster for one or two minutes. then ask them to pick a number and use an ordinal as they identify the character/ animal in that position. For example, if they pick 10, they have to say, “The tenth animal is a giraffe.” If they get it wrong they don't get any points. The student or pair with the highest score wins.

- **My Daily Routine poster:** Elicit verb chunks from the students and write them on the board. Put up the poster and give students 2 minutes to spot the things that are listed on the board. Give them a minute to find and name the things that are not listed.

Option: Have students make pairs or groups and choose an action. Invite students to stand in line representing the actions of the daily routine and say what they do. Then encourage students to change the order or timing of the actions. You can also use the poster for students to talk about the boy's routine. Then decide on a name and ask the students to talk or write about the boy's daily routine.

- **The Zoo poster:** Let students look at the poster, choose an animal and describe it. Make sure they don't mention the name of the animal. The rest of the class can ask up to 3 questions to try and guess which animal it is.
- **Transport poster:** Elicit, and/or provide different destinations. Write them on the board. For example, Riyadh - Jeddah, or home - school. Invite one or two students to be “teachers”, point to one of the destinations, and have the rest of the students name the best transport. The rest of the class has to agree or disagree with the suggested answer. If there is agreement the player/s take over as “teacher/s”. Organize students in pairs or groups and do the activity as a game.
- **My House poster:** Ask pairs or groups to write sentences about the things that are in a room. Tell them to include some wrong objects in two of their sentences. Have the rest of the students read or listen and say if each sentence is True or False.
- **Stationary poster:** Have students make pairs or groups and choose one of the children on the poster. Ask them to describe the child and say what he is doing in class. The rest of the students have to try and say which child it is.
- **My School poster:** Put up the poster. Split your class into groups. Assign a floor/story of the school building to each group and have them write True and False sentences about that floor. When the students are ready, take the poster down or turn it over. Invite one group at a time to read their sentences for the rest of the class to answer. Ask one of the students to write T or F on the board. Then put up the poster or turn it over and check the answers.

Option: Have pairs or groups write questions to ask the rest of the class.

- **My Town poster:** Put up the poster and ask pairs or groups to prepare directions to one of

the places in town from the same starting point. Agree a starting point with the students. Make sure the students who give directions do not mention the destination. Call on groups/pairs to give directions to their chosen destination. The rest of the class have to listen carefully, follow the directions, and find the destination. Allow students to ask for clarification or repetition if they are not sure about something.

- **Action Verb Chunks:** Put up the poster and elicit only the verbs from the students. Write them on the board. Let the students look at the poster for a few minutes, turn it over, and have them use the verbs in the correct chunks.
- **World Map:** Put up the word map and elicit/introduce North, South, East, West. Point to different countries and practice. Have the students repeat the countries and elicit names of cities if they know or remember them.

Option: Elicit and write the names of countries on the board. Point and have the students read the countries. Invite pairs of students to come to the front and point to the country that is being mentioned, on the map. Keep the initial letters of the countries and erase the rest. Ask pairs/groups to try and remember the name of each country.

Teaching Tips • Advice time

This is a feature that each teacher might choose to exploit differently. Here are a couple of standard suggestions:

- Tell the students what the advice is about, for example, parents, and elicit what they think they should do, e.g. listen to parents, respect parents, etc. Then read the advice to them and get them to repeat it. You may wish to ask them to copy and/or illustrate the advice.
- Have different groups copy and illustrate items of advice and stick them on a large sheet of paper or cardboard to create an advice poster. Help students add a few more ideas if you wish.
