( ) Read the following passage then answer the questions below:

A robot is a machine. But it is not just any machine. It is a special kind of machine. It is a machine that moves. It follows instructions. The instructions come from a computer. Because it is a machine, it does not make mistakes. And it does not get tired. And it never complains. Unless you tell it to! Robots are all around us.

Some robots are used to make things. For example, robots can help make cars. Some robots are used to explore dangerous places. For example, robots can help explore volcanoes. Some robots are used to clean things. These robots can help vacuum your house. Some robots can even recognize words. They can be used to help answer telephone calls. Some robots look like humans. But most robots do not. Most robots just look like machines.

1- Where do the instructions that a robot follows come from?

From Computer

2- Does robot made mistakes?

No, it doesn't

3- What is the main purpose of paragraph 2?

The uses of robots.

4- Mention two of the uses of robots.

① Explore dangerous place ② To clean things

5- put ( T ) for true and ( F ) for false:

a- Some robots can recognize words ( T )

b- Robots are natural creatures. ( F )
