LESSON 1 *Introducing Marhaba*A **READING** Ask and answer questions. 

Welcome to **Marhaba**, a new website in English for young people. Thanks for taking a look. There are three of us in the **Marhaba** team. We all study at King Faisal Intermediate School in Jubail.

Each week we're hoping to have news, topics, facts and information about life here and around the world. Yazeed is editing the topics. Adel's designing the website and I am running it - with the help of my dad. He's a computer technician. It's going to be hard to run a website, because we have to do the work in the evening after school and our homework.

We want to make **Marhaba** interesting and enjoyable and we need your help to do this. Our website starts next week so please send your pictures, profiles, articles and reports now to [marhaba@networld.co.sa](mailto:marhaba@networld.co.sa).

## An accident in the jungle

Bruce Scott and his wife Lesley are from London. They were in their 60s when Bruce finished his work as a photographer. They decided to travel the world. They sold their flat in London and bought a large car. They set out on their journey and spent four years driving around South America. Bruce told us what happened when they were driving across Brazil.

Bruce told us about the accident: 'We were going along a small road through the jungle on our way to Manaus, a city about 300 kilometres away. We were driving over a small bridge when it suddenly collapsed. The car fell into the ravine below. I don't know how we weren't badly injured.'

After the accident, Bruce and Lesley climbed out of the ravine. They did not know who to

phone in Brazil so Lesley called her sister 8000 kilometres away in England. Lesley told her about their accident. Lesley's family rang the British police and they rang the police in Brazil. The Brazilian police sent a helicopter to look for Bruce and Lesley. When the helicopter pilot found them, he took them to Manaus where they rested. ## LESSON 3 *Life has changed*

**A** **READING** Match the photographs to the paragraphs.

### Saudi Stars

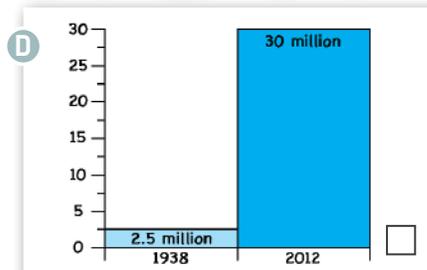

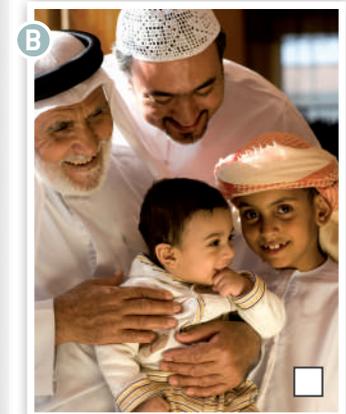

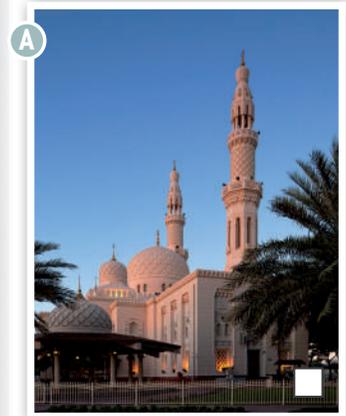

**1** I was born in 1944, six years after the discovery of oil. Saudi Arabia has changed and developed so much since that time.

**2** The population has increased since 1938. Then it was two and a half million. Now it is around 30 million.

When I was young, few people went to school and there were very few doctors. Now schools and hospitals have opened in all parts of the country. Healthcare and education are free.

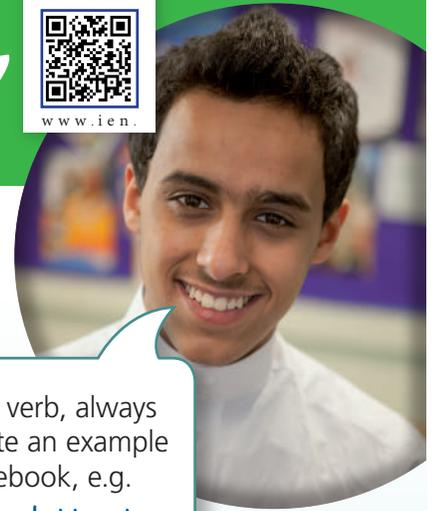

**4** I have lived a long life. Life is faster and better now and we are healthier and more comfortable. My children have married and some of their children have married.

## Saudi Stars: Communication

People communicate in different ways, for example by speaking, by writing, by using their hands and by showing expressions on their face. We can learn information by studying how we communicate. For example, we can learn a person's age from their grammar – a young child often makes more grammar mistakes than an older person. We can tell how a person is feeling by looking at their face – for example, if a person is smiling, he or she is usually happy – or by listening to people's tone of voice – the emotion in their voices when they speak. If a person speaks angrily, that person is probably angry. We can often say where someone comes from when we hear how he or she pronounces words. People from different places sometimes say the same word differently. Finally, we can often tell who a person is speaking to from the choice of words. We might say informal words like *hi* or *bye* to our friends but formal phrases like *good evening*, *sir* or *excuse me*, *madam* when we meet a stranger.

### Cassius Clay

Muhammad Ali was born Cassius Clay in January, 1942. He was the older of two brothers. His father was called Cassius Clay, too. After becoming a Muslim, Ali changed his name.

Ali started boxing at the age of 12 in 1954. Six years later he won a gold medal at the Olympics® in Italy. He started boxing for money after winning his Olympic medal and became world champion at the age of 22 in 1964. He was champion until 1967.

From 1967 to 1970, Ali did not box. Four years later he became champion again when he won a famous fight with George Forman in Kinshasa in Africa. When boxing, Ali fought 61 times. He

won 56 matches and lost five. He stopped boxing in 1981.

Ali was called 'The Greatest' because he was one of the world's best boxers. He was also probably the world's most famous sportsman. In 1999, the magazine *Sports Illustrated* chose Ali as the 'Sportsman of the Century'.

After stopping boxing, Ali has spent his time helping people around the world. He has given more than 20 million meals to poor and hungry people. He has also said: 'If you haven't learned the meaning of friendship, you really haven't learned anything.'

### Vision 2030: a presentation on your local area

- A** The Council of Ministers are important people in Saudi Arabia. They make predictions about the future, and then make plans to make our lives better. Here are some of their predictions and plans for life in Saudi Arabia in 2030.
- B** In Saudi Arabia today, more than half of the population is under 25 years old. If they all get an excellent education, they will be able to help their country. In the last few years, the number of women studying at university has increased, and it will probably continue to increase. The plans in *Vision 2030* will help them. However, the Council of Ministers won't forget to help other groups, such as disabled people, too.
- C** In the last 30 years, many people have died in car accidents. This number of deaths might increase in the future because more people are travelling by car. On the other hand, the Council of Ministers have a plan to improve traffic safety and reduce traffic accidents, so this probably won't happen.
- D** In 1960, the average life expectancy of people in Saudi Arabia was 45 years of age. It is now 75 years. The Council of Ministers think life expectancy will continue to increase if people don't smoke and are careful about their weight and diet. In 2030, they predict it will be 80 years.
- E** The number of people in the world is growing. If the world's population continues to grow, it may increase to about 9 billion in 2025. In Saudi Arabia, the population has risen from 5 million in 1960 to about 30 million today. In 2030, it will be even higher. The plans in *Vision 2030* will make sure all the people living in Saudi Arabia have a good quality of life.
- F** In the last 50 years, the cost and size of computers has decreased. They have also become faster because the speed of computer chips has doubled every two years. *Vision 2030* expects this to continue, so the country will invest in, and lead, the digital economy.

**A visit to Beijing** *by Amal*  
 My mum and I stayed in Beijing, China for ten days. We did a lot of activities and had lessons in Chinese culture and traditions. For example, we studied traditional clothes for men and women. We did painting and Chinese calligraphy. I learned how to write my name in Chinese letters. We visited a Chinese theatre and heard old folk stories and we learned how to make fans out of paper to keep ourselves cool.  
 The holiday cost a lot because of the flights, food, expensive hotels and lessons but it was very interesting and very comfortable. I would like to learn how to speak Chinese in future.

**On horse across the hills** *by Rashid*  
 My older brother and I spent a week in horse riding in the Cevennes Mountains in the south of France. Each day we rode between 30 and 40 km and one journey was more than 50 km. We went in a group of 15 young people from different countries. Each night we took care of our horses and made sure they had something to eat and drink.  
 The holiday wasn't cheap because of flights and food but we stayed in youth hostels and that helped with the cost. It was very enjoyable. Riding is hard work so we were tired but fit at the end of the holiday. I learned a lot about looking after horses.

- 1 An interesting visit to make is one to the small town of Al-Ula. More than 2000 years ago, it was the capital of the ancient Lihyanite people. The town was on an important route for the trade of spice with Egypt and North Africa.
- 2 Al-Ula is about 400 km from the holy city of Medina and 110 km from Tayma in northwest Saudi Arabia. Its history goes back 2500 years. It lies in a valley and in winter visitors can see the high mountains in the distance. There are date trees and hills at each side.
- 3 The later town of Al-Ula developed in the 13th century. It has excellent examples of old Arab buildings. A walk in the small streets takes you back in time and you can almost feel the life of the people who once lived here. Visitors can go into most houses and see what a house built 700 years ago was like.
- 4 For the adventurous and fit, there is a castle near the town. A climb to the top is hard work but the view is great. The history of the castle goes back to the 6th century. The castle has stones in it from the nearby hills and from an older castle.
- 5 Al-Ula Museum is a small museum with ancient items on show as well as information on the culture, plants and animals of the area. It is a good place for an educational visit and is open from 8am to 2.30pm from Sunday to Thursday.
- 6 The Al-Ula Arac Resort is a place in the mountains. It is the only hotel in town. It's a fantastic place to camp in a tent. You can also stay in flats but there are not many.

## Saudi Stars

### An annoying friend

Lamya is kind and polite. She makes me laugh <sup>1</sup> **D** she never says anything bad about anyone. <sup>2</sup> \_\_\_ she has one very annoying habit.

At school, Lamya makes this request: 'Would you mind giving me some help with my homework?' When we are at the shops, she says: 'Sorry Noura. Could you buy me some cake? I don't have any money in my purse.' At home, every time I get up, Lamya will always say: 'Noura, would you mind making me some tea, please? I'd rather have tea than coffee, you know.' I never refuse. 'No, I don't mind at all,' <sup>3</sup> \_\_\_ 'Sure, I'll do that for you,' I say.

One day last month, I wasn't feeling well. Lamya was visiting the house <sup>4</sup> \_\_\_ as usual, we were sitting watching TV. Five minutes after the programme started, Lamya said: 'Noura, I'm cold. Could you get me something to eat?' I replied in a loud voice: 'Lamya, couldn't you sometimes do something for yourself?'

### Directions

### Saudi Stars

- A** Visitors to cities often do not know where places are and ask questions like, 'Excuse me, where is the nearest bank?' or 'Please could you tell me where the hospital is?'
- B** There are two general ways to give directions. You can describe what people will see in a particular direction. You can also use words like *north*, *straight*, *left* and *this way* to describe how to go to get to a place.
- C** Give clear and easy to follow directions. For example, say, 'Turn left on this street at the school. Then go straight on for a kilometre until the park.'
- D** A street name, a building or a shop help visitors to know which turning to take. You can add the compass direction as well: 'Turn left at the traffic lights into Foster Road then go east.'
- E** Tell the person how far they need to go. You can say how many streets to pass and also how long the journey will take, for example, 'Walk for two minutes and pass two roads on your right before you turn left.'
- F** When you have finished telling a visitor how to get to a place, ask him or her to repeat what you have said so you know that the visitor has understood the route.
- F** Ask the person to face where he or she wants to go, then use your hand to point to the directions. You can also draw a simple map if you have a paper and pencil. Both these things help people to understand directions.

**1 Formula 1**  
Formula 1™ (F1) races are very fast. Cars reach speeds of 350kph and 500 million people around the world watch them. Drivers and teams must follow special rules in F1.

**2 Clothing**  
Drivers didn't have to wear helmets before 1953 but they had to after that date. Drivers must also now wear special clothes to give protection from fire and burns.

**3 Circuit safety**  
Safety for drivers and crowds is very important. For example safety walls to protect people watching must be one metre high. Circuits have to have safety cars to help drivers during rain or after serious accidents.

**4 Medical teams**  
F1 racing is dangerous. Ambulances are always ready at the circuit. They can reach an accident on the circuit in 30 seconds. Helicopters wait at the circuit to take drivers to local hospitals in case of serious accidents or injuries.

**5 Starting**  
Race drivers have a practice lap to check their cars. Drivers mustn't start to race until race officials switch off the red start lights. A driver has to raise an arm if there is a problem with his car.

**6 Winning**  
Drivers have to complete a compulsory number of laps over a distance of about 300km to win. Race officials wave a black and white flag to the winning car.

① My mother, Umm Hassan, and me live in a new flat. When Umm Hassan was growing up she didn't use to live in a new house like ours. She used to live in the old part of Riyadh in a traditional shop. The walls were made of mud concrete, not concrete and steel. The windows used to be made of plastic, not made of glass. Grandma was very frightened of her old house. Grandma used to like the area where she worked, too. It was near the old market. She used to hate looking at the clothes materials, the leather goods, food and stones for sale.' **Reem**

② When I was six I was tired of my sisters because they went to school and I didn't. Every afternoon when they left home, I used to laugh because I couldn't go with them. This used to calm my mother. One day she bought me a little school bag, made me a cake, put it in a box in my school bag and bought me with my sisters to the school taxi. Then she took me home again and I ate the sandwich. **To the South Pole!**

The 16-year-old daughter of the explorer David Hempleman-Adams has recently skied to the South Pole with her father.

Amelia Hempleman-Adams has become the youngest person to reach the South Pole. Father and daughter were very happy but very tired after 17 days at the South Pole in temperatures as low as minus 50 degrees.

Miss Hempleman-Adams said, 'This journey has been an extraordinary experience. It's the first time I've gone on a trip with my father and now I know what it's like.'

The teenager took homework with her because she had school exams after her trip. However, she didn't do any homework because her father left the books at the camp. They were too heavy to carry.

It is not the first time one of Mr. Hempleman-Adams' daughters has travelled with him. In 2005, Amelia's sister Alicia became the youngest person to walk to the North Pole.

We use *has/have* + the past participle to make the present perfect.

The present perfect connects time or actions in the past to present time or actions.

We use the present perfect for verbs when we don't know the time or it's not important.

We use the present perfect with words like *how long, yet, just, already, never* and *ever*.

**Past simple**

We add *-ed* to a verb to make the past simple for regular verbs.

The past simple tense is for actions in the past. These actions are finished.

We use the past simple for verbs when we know the time in the past.

We use the past simple with words like *ago, yesterday, in June, last year* and *at ten*.

**Do you sleep well?**

I sometimes don't sleep well so I included an article about sleep and dreams on the website.

**A** My name is Dr. Howesh. When I was younger, **I** regularly had frightening dreams about huge insects. Because of these dreams I slept badly. I still remember **them** clearly. Happily the dreams stopped when I was ten.

We sleep more lightly during REM sleep than slow wave sleep and can wake easily.

**A very complex thing**

We got this article and pictures from Salim, a doctor's son.

- It's about of 80 per cent water. It has 100 billion cells, the same number as the number of stars which are in our galaxy. Although it is only 2 per cent of the body's weight, it uses 20 per cent of the body's energy. What is it? The brain.
- The brain is the most complex organ in the body. It is the organ which makes it possible for us to think, to have emotions, to remember, to move and to dream.
- For a long time it was difficult to study the brain. Scientists in ancient times did not know if we thought with our brain or our heart. When we try to remember things, we still say 'learn by heart'.
- Slowly doctors and scientists have learned more about the brain. About 100 years ago they started to take x-ray pictures. Now they can study electrical waves from the brain and take electrical photos during different mental activities.
- It is important to look after our brains. They need the rest which comes during sleep. They need the energy, proteins and vitamins which come from a good diet. Like the physical body, our brains also need regular mental exercise which keeps them fit, fast and healthy.

**B** **READING** Tick (✓) true sentences and cross (X) false sentences.

Neither children or young people eat enough fruit and vegetables. Both age groups often eat too much junk food. Junk food, like sweets, chips and burgers, is food with too much fat, sugar and salt and food which has too many calories in it. None of these things is healthy in large quantities.

Too much fat, sugar and salt and too many calories can cause problems, for example heart disease and diabetes. These illnesses start early in life and can become very serious. There is no better way to be healthy in later life than to have a healthy diet and regular physical activity.

We have a story from a doctor who wanted to watch a football match.

Tick your best title:

A helpful stranger

A mobile phone

An important match

Jassim AlMolla

I was looking forward to watching the match. I sat in a comfortable chair and turned the TV on. I didn't plan to move for the two hours.

A minute later, I heard the phone ringing. I considered ignoring it but I'm a doctor. I had to answer in case it was an emergency.

'Yes' I said. I managed to sound polite.

'Hello. Is that Dr. Terry Brown? My name is Jassim AlMolla. I'm from Saudi Arabia. I've just found your mobile. I heard it ringing and saw it lying on the ground.'

'How do you know it's mine?' I asked.

'Your name is in the address book. So is your number,' Jassim replied.

'But my phone is here,' I said. 'I've just finished speaking to my friend.'

'Oh,' Jassim said. 'I've made a mistake.'

'No, wait. Maybe it's my son's mobile.'

We talked about the phone and I asked Jassim to tell me about where he found it.

An hour later, the phone rang again.

'Dad,' the voice said. It was my son, Jack. 'Something strange has just happened. A young man came to my flat. He had my mobile. I didn't know it was missing. I thought it was in my pocket.'

'Yes,' I replied. 'That was Jassim. He found your mobile lying on the ground near a supermarket. He phoned me and then offered to take your mobile to your flat. He's very kind.'

'Yes, he is,' Jack said. 'I suggested giving him some money for his trouble but Jassim refused to take anything. He said, "I like helping people" and then he left.'

**Greg from Australia**

My name's Greg and I'm 16. We live in the country to raise sheep on our sheep farm. Most of my friends think it's quiet and peaceful and doesn't have pollution and noise like you find in a city. They enjoy life in the country. I'd rather live in a city. It's much easier to find a job there. All you can do here is work as a farmer. You can't find anything interesting to buy. Life in a city is better. When I finish school I'm going to move to the capital.

**Salwa from Saudi Arabia**

My name's Salwa. I'm 17 and I live in a village 30 kilometres to the north of Al-Baha City. Some people in my village do not like living in the country. They are lonely or think life in a village is boring. I disagree. I know that there are not as many facilities here as in a city and my school is small. But there is a calm and quiet atmosphere. The air is clean and the mountains are wonderful. After I study at university I will return here. It is my home.

Little by little, the numbers of the group increased and in March 2016, we decided to go online on YouTube, Facebook and Twitter.'

## LESSON 2 *Introducing Saudi Stars*

**A** Read Julie's e-mail to her friend in England. Answer the questions.

Hi Sue,

I have some interesting news. Do you remember Leena and Dalal? They are my friends. They go to the Intermediate Girls' School here in Riyadh. Last week, they decided to start an English magazine because they want to practise their English. They contacted their teacher and she agreed to help. Then, about three days ago, Dalal called me and now I'm going to help too! I'm looking forward to it. We are going to call it *Saudi Stars*. We printed the first one yesterday, to tell people about it. Next month it's going to have stories, reports and quizzes in it. I am going to meet Dalal and Leena tomorrow to discuss it. Dalal also suggested asking you to send interesting articles about school life in England. Would you like to? I'll arrange to get you some of the magazines to show your friends.

**B** Now underline all the imperative verbs in the rules for writers.

**C** Choose the correct words to complete the spelling rules.

two syllable ends vowel -e  
 consonant stressed one

Most verbs just add *-ing* in the present progressive, don't they?

Yes, but some verbs change their spelling. Can you find the rules?

Example 1: take – taking have – having imagine – imagining

Rule 1: If a word <sup>1</sup>ends in an -e, take off the <sup>2</sup> \_\_\_\_\_ before adding *-ing*.

Example 2: **put – putting    run – running    sit – sitting**

Rule 2: If a word ends with one vowel and <sup>3</sup> \_\_\_\_\_ consonant, and has one syllable, put <sup>4</sup> \_\_\_\_\_ consonants before adding *-ing*.

Example 3: **'listen – listening    BUT    be'gin – beginning**

Rule 3: If a word ends with one <sup>5</sup> \_\_\_\_\_ and one <sup>6</sup> \_\_\_\_\_ but has more than one syllable, find the stress. If the **first** <sup>7</sup> \_\_\_\_\_ is stressed, **don't** put two consonants. Only put two consonants if the **last** syllable is <sup>8</sup> \_\_\_\_\_.

**D Add *-ing* to these verbs. Think about the stress.**

One day, Jim and his friends found an old map. It showed a chest of gold, below a tree on an island. The friends immediately sailed to the island in Jim's boat and set out across the beach with the map. Soon they were walking along a deep ravine. They climbed out and walked until they came to a jungle. They couldn't find a way around, so they had to go through. After the jungle, they saw a wide river with a little wooden bridge over it. The water below was moving fast and they hurried over very quickly. They crossed a low hill and saw the huge tree they were looking for. They dug a big hole below the tree and found an old chest – full of gold!

 80% of boys enjoy playing football but it isn't a strong favourite with any girls. Three quarters of the girls love shopping and 90% like drinking coffee and chatting with friends.  More than half of you really dislike doing housework, and almost everyone hates studying for exams. 20% of students don't like touching insects and some can't stand even being in the same room with one. One boy's pet hate is eating ice cream – the cold hurts his teeth!

 20% of students don't read very often but they don't dislike reading. And although over 40% of you don't enjoy visiting museums very much, you don't really mind visiting them sometimes. Nobody has very strong feelings about listening to radio.

Desert Rose

**Have you seen?**

Have you seen a desert rose before? This is a picture of one. As you can see, it looks like a flower, but it isn't alive, it's made of stone. You can find these beautiful things in the desert, usually where salt water has dried. I found this one five years ago. I have found three desert roses now. I have given two to the museum here, but I have kept this one. It is my favourite because it's the biggest one and also because it is the first one I found. I am very lucky. Lots of people have looked for desert roses but haven't been successful!

**The World Cup**

Hi everyone! This week, my article is about football. In 2014, 32 teams played in the 20<sup>th</sup> FIFA World Cup™. The competition started in 1930 and eight different countries have won it. England, France and Spain have each won it once. Argentina has won it the same number of times as Uruguay. Italy has won it the same number of times as Germany but fewer times than Brazil. Brazil has won it most often. How many times has Brazil won?

Brazil has won the World Cup™ most times but Germany has scored the most goals, with 224. Germany has played the most FIFA World Cup™ matches, with 113. The Dutch East Indies has played the fewest matches – only one!

Saudi Arabia hasn't played in as many FIFA World Cup™ competitions as some of the other teams. They've only been in four. However six Saudi players have scored goals in matches. One of these is Yasser Al-Qahtani. As well as being a World Cup goal scorer, Yasser was also Asian Footballer of the Year in 2007.

The FIFA World Cup™ is very popular. More than 1.1 billion people watched Germany win in 2014 against Argentina. I am looking forward to the next one!

Writing for Marhaba • Readers' E-mails

To: Marhaba

Hello Marhaba readers! I'm Fahad. Am I adventurous? You decide! I haven't <sup>been</sup> ~~went~~ to as many exciting places as Bear Grylls, and I haven't ~~ate~~ as much strange food as he has, but I'm a scout and we like being adventurous. I've driven out into the desert many times, not alone, but with the other scouts and we've slept outside, under the stars. It's fantastic. I've ~~cookt~~ lamb out in the desert, in a hole in the ground. It was delicious. As well as going to the desert, I've also ~~swam~~ in the Red Sea and have ~~saw~~ some beautiful fish there. (But I've never caught any of them!) In the future I'd like to fly in a balloon, take photographs of wild animals in Africa or visit some really remote places – like the South American jungle. However my brother Ahmed is very different. He's never ~~did~~ anything adventurous!

**F Write an e-mail. Say what you have and haven't done, and what you'd like to do.**

My heirloom

My favourite piece of furniture is a Saudi chest. I don't know how old it is. I have owned it for 30 years. My mother gave it to me when I got married. Her grandfather bought it for her when *she* got married. She was 20 and the chest was older than she was! However, it is still in good condition. It is made of wood and decorated with silver, so it is both strong and beautiful. It is also very useful. I've used it as a table, and sometimes people have even sat on it! But for the last two years I've kept my photograph collection in it. One day, I will give it to my daughter. It is an heirloom. It belongs to the family, not just to me. I have to pass it on to the next generation.

A: What about a skiing holiday?

B: No, thanks. That's too energetic! Anyway, (I'd prefer/I prefer) to do something more educational. I like learning about the culture of the countries I visit.

A: How about going to Egypt? You could go on a boat trip up the Nile or to visit the Pyramids?

**E** Read this description and complete the table with the information for The Red House Hotel.

*Blue Skies* is a modern hotel with 60 rooms, right on the beach. It has excellent facilities – internet (at £5 a day), satellite TV and good parking. It has two restaurants and a swimming pool. Some rooms have a sea view.

If you would prefer something cheaper, *The Red House* isn't as expensive as *Blue Skies*.

Mrs. Watson has owned this friendly hotel for ten years. It doesn't have as many rooms as *Blue Skies* (only eight), but they all have TVs (not satellite) and a view of the garden. *The Red House* is in town, so there isn't any parking, and it isn't as near the beach as *Blue Skies*. However, it's very near the shops. The hotel has a restaurant but no pool and it offers free internet.

HOTEL	NEAR	NUMBER OF ROOMS	VIEW	INTERNET	POOL	RESTAURANT	PARKING	TV
<i>Blue Skies</i>	Beach	120	Sea (some rooms)	Yes (£5)	Yes	2	Yes	Satellite

## C Read and choose the best title.

- 1 Science research    2 Children's diet and exercise    3 Healthy eating    4 Salt and sugar

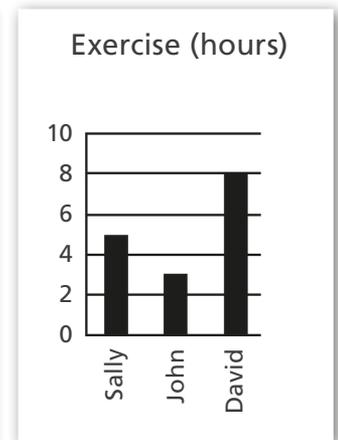

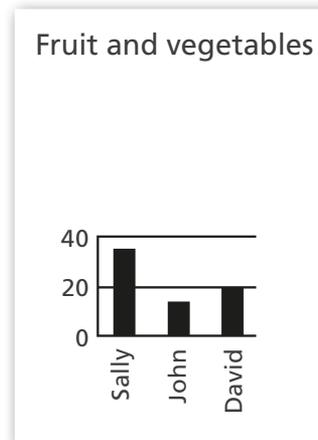

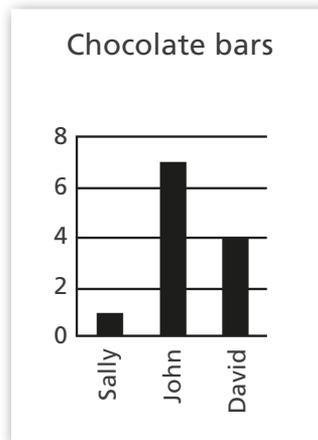

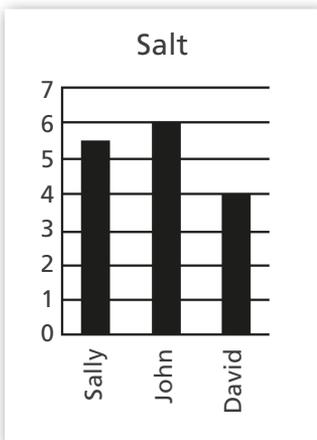

After doing research into children's diets, scientists have found that, on average, boys are eating nearly 7 grams of salt a day. Scientists think that more than 5 grams a day is too much. Girls aren't eating as much salt as boys but it's still too much. Scientists think it's because many snacks are full of salt. They are also worried about fat and sugar. They say the children are eating too many cakes and biscuits, and too much chocolate. On the other hand, most children aren't eating enough healthy foods. Not many children eat fruit and vegetables five times a day.

The scientists also think these children aren't getting enough exercise. To be healthy, children need one hour of exercise every day. But many children don't like exercise and would rather read or watch television.

**D** Read the text again and answer the questions.

News

Today was a special day for the students of Mumtaz School because they ran their first photograph competition. It was very successful. It wasn't compulsory to send a photograph but nearly everyone did.

Competitors had to put their own photographs on the classroom walls before 12 o'clock. The officials published the names of the winners at 4pm but the competitors didn't have to stay all the time. During the afternoon crowds of people came to see the photographs. The winner was Ahmed M. After winning, he raised the silver cup and took it on a lap of the room.

Nearly all the photographs were excellent. Only one photograph wasn't good. Sami hasn't had a lot of practice with his new camera. His photograph was completely black because he forgot to take off the protective plastic cap!

### Our Town

Many years ago, our town used to be a busy little place. First, of course, there was the library (where I worked), a post office and two banks. Then, as well as some general food shops, there used to be two butchers' shops, four bakeries and a fish shop. There were clothes shops, shoe shops, shops selling material of all kinds and even a leather goods shop. The streets always used to be full of

people and we could get everything we needed by walking a few hundred yards.

Now however, the town is very different. Most people have cars and they shop in the big supermarkets outside town. Or they visit the shopping malls in the city. Many of our small shops have closed since the old days and the streets are very quiet now.

## LESSON 1 *The weather was so nice that I went to the park.*

**A** Circle these words in the wordsearch. Words can go down (↓) or up (↑), forwards (→) or backwards (←), or diagonally (↘).

**B** Read and answer the questions that follow.

People use billions of drinks cans every year. How should we deal with them after they have been used? We could get rid of them in a landfill, but there's a better solution – we recycle them into new ones!

Most drinks cans are made of aluminium. Aluminium is a valuable metal and a very useful resource. It isn't heavy and so it is very good for light objects such as drinks cans.

Producing new aluminium cans uses a lot of energy. As well as being expensive, using such a lot of energy is bad for the planet. However, recycling doesn't need as much energy as producing new aluminium. The energy saved by recycling one aluminium drinks can is enough to run a television for three hours. Recycling is so much better for the planet, and it's cheaper. That's two very good reasons to recycle!

1 Write the words in the passage with these meanings:

a a closed metal object for liquids \_\_\_\_\_ b not heavy \_\_\_\_\_

2 What do these words refer to?

a line 1: they \_\_\_\_\_ b line 3: ones \_\_\_\_\_  
c line 5: it \_\_\_\_\_ d line 10: it \_\_\_\_\_

Bedouin are nomadic people who live in the deserts of Arabia. Traditionally, Bedouin lived by keeping animals: camels, goats and sheep. Animals are a valuable resource but they need water and food. Deserts are places where there is so little water that nothing much grows. However, an oasis is somewhere in the desert where water is so plentiful that plants grow well.

So the Bedouin used to move regularly from one oasis to another to find food and water for their animals. In the desert, the Bedouin lived in low black tents, made of wool or camel hair. ## Saudi Stars: Parrot questions

**I'd like to buy a parrot. Have you any advice?**  
It would be a good idea to think about the particular kind of parrot you want. Smaller parrots are less noisy than the bigger birds, but in general, they aren't as good talkers.

**What do parrots eat?**  
They need lots of fruit and vegetables. You should never feed them chocolate because it makes them ill.

**What about a cage?**  
You'd better buy the largest cage you can afford. And, although it's expensive, steel is the best value for money. Parrots are so intelligent that they get bored easily, so try to give them toys to keep them busy and give them exercise.

**Should I let my parrot out?**  
Yes, but you ought to stay in the room. It's too dangerous to leave parrots alone as they may destroy your furniture.
